

De Oudste Bedelordekloosters In Holland En Zeeland

Annelies Wilder-Smith

De Oudste Bedelordekloosters In Holland En Zeeland:

Denmark and Europe in the Middle Ages, c.1000-1525 Kerstin Hundahl, Lars Kjær, Niels Lund, 2016-05-23 Where medieval Denmark and Scandinavia as a whole has often been seen as a cultural backwater that passively and belatedly received cultural and political impulses from Western Europe Professor Michael H Gelting and scholars inspired by him have shown that the intellectual religious and political elite of Denmark actively participated in the renaissance and reformation of the central and later medieval period This work has wide ramifications for understanding developments in medieval Europe but so far the discussion has taken place only in Danish language publications This anthology brings the latest research in Danish medieval history to a wider audience and integrates it with contemporary international discussions of the making of the European middle ages De oudste stadsrekening van Dordrecht 1283-1287 J. W. J. Burgers, E. C. Dijkhof, 1995

Handbook of Dutch Church History Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration Theses texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments Geschiedenis van Dordrecht: Geschiedenis van Dordrecht tot 1572, 1996 The Low Countries History Yearbook 1979 C. Dekker, G. Asaert, W. Nijenhuis, P. Van Peteghem, D. J. Roorda, C. R. Emery, K. W. Swart, K. Van Der Pols, 2012-12-06 The Making of Medieval Antifraternalism G. Geltner, 2012-04-05 A case study in opposition to religious authority in the pre modern period Geltner treats a phenomenon known as antifraternalism from a fresh methodological and documentary perspective He challenges many assumptions made about the early history of the mendicant orders and the origins scale and scope of resistance to them *Between Saint James and Erasmus: Studies in Late-Medieval Religious Life - Devotion and Pilgrimage in the Netherlands* Jan van Herwaarden, 2021-10-25 This volume is divided into four sections late medieval devotion in the Netherlands medieval Christian pilgrimage the medieval cult of St James the Great and Erasmiana Variety and coherence sound the keynote in the title and the contents of the book Religious concepts and expressions of

religious faith such as pilgrimages and indulgences are representative of late medieval Christianity In this book they refer specifically to the medieval cult of St James the Great while for Erasmus they were an object of his critical consideration The whole book can be read in the light of the debate about the tension between an appreciation for outward signs of faith and the inward experience of religious belief which Erasmus considered an absolute necessity *De oudste bedelordekloosters in het graafschap Holland en Zeeland* P. A. Henderikx,1977

Stadswording in de Nederlanden Reinout Rutte,Hildo Engen,2008 Dit boek gaat over de wording van steden in de Nederlanden gedurende de Middeleeuwen Bijna alle steden die wij tegenwoordig kennen zijn tussen de elfde en vijftiende eeuw ontstaan Dankzij het vele werk dat is verzet in bijvoorbeeld de archeologie de historische geografie de geschiedwetenschap en de architectuurgeschiedenis is de kennis van het stadswordingsproces de afgelopen decennia flink toegenomen Door het overwegend specialistische karakter van het recente onderzoek is een overzichtelijke kijk op de Nederlandse stedengeschiedenis echter ver te zoeken In dit boek wordt voor het eerst een handzaam overzicht gegeven Een keur aan specialisten uit de verschillende disciplines behandelt op toegankelijke wijze thema s zoals de stad in het landschap de interpretatie van archeologische vondsten de morfologie van de stad en de verlening van stadsrechten Bovendien wil dit boek duidelijk maken wat de diverse disciplines die zich bezighouden met de geschiedenis van de stad aan elkaar kunnen hebben en zo een stimulans zijn voor verder synthetiserend onderzoek naar de wordingsgeschiedenis van steden in de Nederlanden

Edelen in Zeeland Arie van Steensel,2010 Het beeld van een adel in verval in de laatmiddeleeuwse Nederlanden is niet langer houdbaar maar het is onduidelijk welke positie edelen dan wel hadden in de samenleving In Edelen in Zeeland worden de contouren van de adellijke populatie in het graafschap Zeeland tussen 1400 en 1550 geschetst De centrale vraag is hoe de macht rijkdom en status van de adel als groep en hoe de reproductiestrategie n van de individuele edelen zich ontwikkelden in een periode die werd gekenmerkt door staatsvorming verstedelijking en commercialisering De politieke geschiedenis en sociale instituties van Zeeland drukten een belangrijk stempel op het karakter van de adel De diversiteit in politieke en economische profielen tussen de edelen was groot maar zij behielden gemeenschappelijke sociale netwerken De adellijke identiteit en levensstijl kwamen in de zestiende eeuw meer in het teken te staan van staatsdienst dan van ridderschap
