Reduction Agenda Jonathan J. Makuwira,2013-12-04 The Non Governmental Development Organisations NGDOs have over

the past two decades entered centre stage in their active participation in the social political and economic issues affecting both the developing and developed world This book offers a highly stimulating and concise summary of the NGDO sector by examining their history and metamorphosis their influence on the social political and economic landscapes of the Northern and Southern governments and societies The author analyses competing theoretical and conceptual debates not only regarding their contribution to the global social political dynamism but also on the sector s changing external influence as they try and mitigate poverty in marginalized communities This book presents NGDOs as multidimensional actors propelled by the desire to make a lasting change but constrained by market oriented approaches to development and other factors both internal and external to their environment While a lot of attention has been given to understanding international NGDOs like World Vision International Oxfam Care International and Plan International this book offers a critical analysis of grassroots organizations those NGDOs founded and established by locals and operate at the deepest end of the development contexts This work will be of interest to students and scholars in a range of areas including Development Studies International Organizations and Globalization

Rwanda's Stillborn Middle-Income Economy David Himbara, 2020-01-02 Rwanda s Stillborn Middle Income Economy shows how Rwanda s head of state Paul Kagame and his international backers Bill Clinton Tony Blair Jim Yong Kim and the World Bank failed to create prosperity in Rwanda their claims to the contrary notwithstanding Vision 2020 under which Rwanda was to become a middle income economy was a fiasco Rwanda remains appallingly poor unable to provide food security for its people The book offers a lens into the Rwandan ruler s manipulative power by examining a range of false or dubious proclamations and the myriad ways in which he misled the world into believing that he had turned Rwanda into a prosperous African nation The book also reveals how Western politicians such as Clinton and Blair ruthlessly promote themselves while immorally benefiting from fighting poverty in countries such as Rwanda Clinton and Blair need Kagame just as Kagame needs them They are in mutually beneficial relationships of opportunism and greed in which poverty is a valuable commodity
