De Puinhopen Van Acht Jaar Paars:

Dynamics of Power in Dutch Integration Politics Justus Uitermark, 2012-09-01 De manier waarop integratie moslims en minderheden werd besproken en bestuurd veranderde drastisch tussen 1990 en 2005 Maar hoe veranderde het integratiedebat precies en waarom En hoe werkten die veranderingen door in het beleid van steden als Amsterdam en Rotterdam Dit boek gebruikt nieuwe methodes en data om die vragen te beantwoorden Een analyse van opinieartikelen laat zien dat culturalisten debatdeelnemers die stellen dat onze verlichte liberale Nederlandse cultuur moet worden beschermd tegen etnische en Islamitische minderheidsculturen hechtere relaties onderhouden en meer achter hun leiders staan dan hun talrijke maar gefragmenteerde tegenstanders De veranderende machtsverhoudingen in het debat blijken niet n op n door te werken in het lokale beleid In de periode dat Leefbaar Rotterdam de gemeenteraad domineerde 2002 2006 zijn migrantenorganisaties over de hele linie eerder versterkt dan verzwakt *New Parties in Government* Kris Deschouwer, 2008-02-08 Party literature is largely focused on the rise and success of new parties and their effects on party systems and older parties This book on the other hand provides a valuable and original addition to such literature by analyzing what happens to a party when it enters government for the first time Leading contributors assess how these parties whether old or new change when entering government by answering a set of questions How and why has their role changed What are the consequences of change What explains the evolution from principled opposition to loyal opposition and eventually to participation in the executive Which characteristics of the parties can be held responsible Which characteristics of the parties context should be brought into the picture What have been the effects of the status change on party organization party ideology and electoral results Covering a wide range of European parties such as the Finish Greens right wing parties FN Lega Nord and Alleanza Nazionale and new parties in Italy The Netherlands and Sweden to name a few this book will be of particular interest to scholars and students concerned with party systems political parties and comparative politics *Imagined Societies* Willem Schinkel, 2017-02-16 Imagined Societies explores how images of society and of national belonging have been forged by the media and politicians through the portrayal of immigrants and their failed integration Examining the experience of the Netherlands and other Western European countries this book analyses how discussions of integration culture religion and sexuality promote notions of national societies **Europe for the Europeans** Christina Schori Liang, 2016-04-29 For the last two decades the number of political organizations on the far right neo populist right and neo conservative right has been growing Along with the mounting electoral success for many of the parties there has also been a growing disenchantment with the political class which has led to a revolt against the current political establishment The events of September 11 2001 and the War on Terror have further aggravated tensions within the populations between those who feel they are the legitimate citizens of the state and those who are considered outsiders The recent expansion of the EU s borders has also brought on fears of a surge of both legal and illegal immigration All these

factors have led to a growing number of cases of harassment and outbursts of violence aimed at asylum seekers and ethnic minorities in Europe This book measures the effects of neo populist groups on the current political establishment and illustrates how much political appeal neo populist views have on making current political policy **Between the Social and the Spatial** Katrien De Boyser,Jürgen Friedrichs,2016-04-15 Since the beginning of the 1990s the gradual widening of scientific and policy debates on poverty from a narrow focus on income poverty to a more inclusive concept of social exclusion has made poverty research both more interesting and more complicated This transition to a more multidimensional conceptualization of poverty forms the background and starting point of this book Researchers studying the social and spatial dimensions of poverty have only started to challenge and explore the boundaries of each other s research perspectives and instruments This book brings together these different bodies of literature on the intersection of spatial and social exclusion for the first time by providing a state of the art review written by internationally recognized experts who critically reflect on the theoretical status of their research on social exclusion and on the implications this has for future research and policy making agendas **Media and the Restyling of Politics** John Corner,Dick Pels,2003-08-07 Within media research and cultural studies the mediation of politicians and the play off between versions of high and low politics are attracting increasing interest Media and the Restyling of Politics brings together the work of leading academics in media and cultural studies to pursue an agenda of research analysis and debate about the changing nature of political culture and its mediation The contributors question the ways in which emerging forms of political style relate not only to new conventions of celebrity and publicity but to ideas about representation citizenship and the democratic process Topics covered include celebrity politicians the marketing of politics identity and popular culture Reflections on the Revolution in Europe Christopher Caldwell,2009-04-30 Why has Europe s half century of mass immigration failed to produce anything resembling the American melting pot Deadly terrorist attacks and rioting in Muslim neighbourhoods have now forced Europeans caught up in a demographic revolution they never expected to question its success and to confront the limits of their long held liberal values By overestimating its need for immigrant labour and underestimating the culture shaping potential of religion has Europe trapped itself in a problem to which it has no obvious solution Christopher Caldwell has been reporting on the politics and culture of Islam in Europe for over a decade In his provocative and unflinching book Reflections on the Revolution in Europe he reveals the anger of natives and newcomers alike He describes asylum policies that have served illegal immigrants better than refugees He exposes the strange interaction of welfare states and Third World traditions the anti Americanism that brings natives and newcomers together and the arguments over women and sex that drive them apart And he examines the dangerous tendency of politicians to defuse tensions surrounding Islam by curtailing the rights of all Based on extensive reporting and offering trenchant analysis Reflections on the Revolution in Europe is destined to become the classic work on how Muslim immigration permanently reshaped the West **Multiculturalism and the Welfare State** Will Kymlicka,Keith

G. Banting, 2006 And political foundations of the welfare state and indeed about our most basic concepts of citizenship and national identity

In the House of War Sam Cherribi, 2010-07-09 Sam Cherribi is a Moroccan Muslim who became a naturalized Dutch citizen and member of the Dutch Parliament In this book he draws on his personal experiences with European politics and media extensive fieldwork in Dutch mosques and interviews with imams In recent years the Netherlands has been swept by the same forces of change that have swept the rest of Europe the consolidation of the European Union a massive influx of Muslim immigrants and the rising voice of Islamic fundamentalism Cherribi argues that this small country has amplified these forces providing a useful lens through which to examine trends in all of Europe The portents are troubling he notes as evidenced by the murders of journalist Pim Fortuyn and filmmaker Theo Van Gogh after which riots broke out mosques were burned and Muslims were openly reviled by the public and the media Cherribi himself was voted out of Parliament in the anti migrant fervor that engulfed the Netherlands after these murders and like many other Dutch Muslims he emigrated to the United States Looking back on these events and bringing to bear his skills and training as a sociologist Cherribi provides an invaluable account of one country's encounter with some of the most troubling trends of our times

Populism in Western Europe Teun Pauwels, 2014-08-01 Despite the increasing academic interest in populism we still lack understanding of individual factors contributing to populist voting One of the main reasons for this is that populism is almost always attached to other ideologies which makes it difficult to isolate factors This book draws on an innovative research design by comparing the reasons to vote for six populist parties which differ remarkably in terms of their host ideology in Belgium The Netherlands and Germany The results show that populist voters are motivated by their dissatisfaction with the functioning of democracy and a desire for more direct democracy Furthermore it appears that populist parties do not mobilize among one specific social group although deprived groups are generally more susceptible to populist voting Finally this study explored why some populist parties persist while others decline Origins of party formation and how leaders organize their party internally seem the most important factors determining party persistence This book will be of great interest to students and scholars of populism European politics and contemporary political theory
