Bailey, 2006 This volume places the New Testament letters squarely in the middle of all the important letter corpora of antiquity Chapters cover the basic letter formula papyrus and postal delivery non literary and diplomatic correspondence Greek and Latin literary letters epistolary theory letters in early Judaism and all the letters of the New Testament Part I of each chapter surveys each corpus followed by detailed exegetical examples in Part II Comprehensive bibliographies and 54 exercises with answers suit this guide to student and scholar alike Publisher s website **Rome's Enemies Within** John S McHugh, 2024-10-30 The greatest danger

to Roman emperors was the threat of deadly conspiracies arising among the Senate the imperial court or even their own families All the emperors that reigned from Augustus to the end of the first century AD faced such efforts to overthrow or assassinate them John McHugh uncovers these conspiracies narrating them and seeking to explain them The underlying cause in many cases was the decline in influence patronage and status granted by emperors to the Senatorial class leading some to seek power for themselves or a more generous candidate Attempted assassinations or coups led the emperors to mistrust the Senate and rely more on freedmen causing more resentment Paranoid emperors often reacted to the merest hint of treason real or imagined with punishments and executions leading more of those around them to consider desperate measures out of self preservation And of course amid this vicious circle of poisonous mistrust there were ambitious family members promoting their own or their offspring s claims to the purple and the duplicitous Praetorian Guard John McHugh brings to light a century of assassination conspiracy and betrayal exploring the motives and aims of the plotters and the bloody cost of success or failure

new job two businessmen collaborate online and cofound a successful start up a friend introduces a promising entrepreneur to a millionaire looking to invest But why do these lucky breaks always happen to other people Personal and professional networks shape everything we do but simply knowing that they exist won't help you harness your connections for maximum success With an eye toward business applications Superconnect outlines the new rules of our densely linked society At the core of the analysis are three simple network components strong relationships weak relationships and hubs that interact in surprising counterintuitive ways Understanding how these components mesh and connecting unrelated people is the way to achieve in today's hyper-connected world

Legacy: The Apocryphal Correspondence between Seneca and Paul David Mitchell, 2010-08-03 In the 4th Century AD a correspondence between the Apostle Paul and the Stoic philosopher Lucius Annaeus Seneca surfaced and circulated among the scholarly elect of the recently liberated corporate Catholic Church Although the letters are spurious in nature no Church Father trained in deciphering the legitimacy of interpolated and amended writings of first century documents thought it necessary to denounce these letters as such One even chose to endorse the pagan Seneca as beneficial to the Church on account of these letters This endorsement actually secured the survival of Seneca's other works and his impact on history's notable scholars Legacy The Apocryphal Correspondence between Seneca and Paul follows the Correspondence as it toured Europe passing through the hands of the men who profoundly shaped the world we live in today Would Seneca have had such an influence on Petrarch John Calvin or William Shakespeare to name a few had not a 4th century renegade crafted these letters

The Political Dialogue of Nature and Grace Caitlin Smith Gilson, 2017-03-23 The discourse between nature and grace finds its linguistic and existential podium in the political condition of human beings As Caitlin Smith Gilson shows it is in this arena that the perennial territorial struggle of faith and reason God and man man and state take place and it is here that the understanding of the personal as political as well as the political as personal finds its meaning And it is here too that the divine finds or is refused a home Any discussion of post secular society has its origins in this political dialogue between nature and grace the resolution of which might determine not only a future post secular society but one in which awe is re-united to affection solidarity and fraternity Smith Gilson questions whether the idea of pure nature antecedently disregards the fact that grace enters existence and that this accomplishes a conversion in the metaphysical existential region of man's action and being This conversion alters how man acts as an affective moral intellectual social political and spiritual being State of nature theories transformed yet retained in the broader metaphysical and existential implications of the Hegelian Weltgeist are shown to be indebted to the ideological restrictedness of pure nature *natura pura* as providing the foremost adversary to any meaningful type of divine presence within the polis as well as inhibiting the phenomenological facticity of man as an open nature
