In this groundbreaking work author David Scott Diffrient explores largely understudied facets of cinematic horror from the various odors permeating classic and contemporary films to the wetness sliminess and stickiness of these productions which he argues practically scream out for a tactile mode of textural analysis as much as they call for more traditional forms of textual analysis Dating back to Carol Clover's and Linda Williams's pioneering work on horror cinema film scholars have long conceptualized this once disreputable category of cultural production as a body genre However despite the growing recognition that horror serves important biological and social functions in our lives scholars have only scratched the surface of this genre with regard to its affective corporeal and sensorial appeals Diffrient anatomizes horror films in much the same way that a mad scientist might handle the body separating and recombining constitutive parts into a new analytical whole Further he challenges the tendency of scholars to privilege human over nonhuman beings and calls into question ableist assumptions about the centrality to horror films of sight and sound to the near exclusion of other forms of sense experience In addition to examining the role that animals living or dead real or fake play in human centered fictions this volume asks what it means for audiences to consume motion pictures in which actors stunt performers and other creative personnel have put their own bodies and lives at risk for our amusement Historically grounded and theoretically expansive *Body Genre Anatomy of the Horror Film* moves the study of cinematic horror into previously uncharted waters and breathes life into a subject that not coincidentally is intimately connected to breathing as our most cherished dividing line between life and death Brigitte Bardot Ginette Vincendeau, 2019-07-25 Ginette Vincendeau analyses Bardot's rise to fame as a highly acclaimed French international film star and fashion icon from her early days as a fashion model and ballet dancer to her period of high stardom between 1956 and 1960 Frances Farmer Peter Shelley, 2014-01-10 Previous biographies of American actress Frances Farmer 1913-1970 have downplayed her professional achievements to emphasize her turbulent personal life including several police arrests and repeated confinements in a state mental hospital By focusing upon her acting career this book endeavors to restore her position as a significant Hollywood player of the 1930s 40s and 50s An analysis of her film radio and television work is offered as well as assessments of the three Frances Farmer biopics and the documentaries in which she is featured Each of her 16 films receives a chapter length discussion A very lengthy biographical chapter is included The Romanian Cinema of Nationalism Onoriu Colăcel, 2018-10-25 Prior to the collapse of communism Romanian historical movies were political encouraging nationalistic feelings and devotion to the state Vlad the Impaler and other such iconic figures emerged as heroes rather than loathsome bloodsuckers celebrating a shared sense of belonging The
