Learning Circles Michelle Collay, 1998-08-18 The Golden Age Of Antibiotics Is Over Deadly new organisms resistant to all known antibiotics are emerging all over the planet and gaining ground FAST It s over The truth is the comfortable world as we have known it for the last 60 years is coming rapidly to an end Bacteria are deadly and the short period of time where we were able to control them is vanishing fast Because of their fantastic power of multiplication doubling every 20 minutes or so that new strain could be all over the Earth within months or even weeks You ve heard of MRSA everyone has heard of MRSA But did you know that in 2009 an even more virulent new strain of MRSA emerged that is FIVE TIMES more deadly and kills 50% of its victims But it s not just MRSA Now we have VRE vancomycin resistant enterococcus which is far more deadly than MRSA 100% fatal septicemia Also we now have PRSP penicillin resistant Streptococcus pneumoniae It is reported that out of 100 000 hospitalizations for pneumonia 40% are now due to this organism And don t forget resistant syphilis is back on the loose Syphilis Lues was one of the most feared of all diseases for centuries and kept young men and women in terror of the act of sexual union Our old enemy TB is on the prowl too with a new strain which is classed MDR multiple drug resistant In Germany in the summer of 2011 A deadly new strain of E Coli emerged that is highly resistant to antibiotics and killed hundreds in Europe on it s unstoppable rampage If you are not worried about this deteriorating position you should be False reliance on drugs and pharma medicine has proven to be a weak strategy the game is LOST The Truth Is You can t hold back bacteria They are too overwhelmingly numerous and powerful But there is GOOD news In the days before antibiotics not everyone died of their infections There were scores of great workable non drug solutions to infections These remedies still work You need to get to know them get re acquainted with our folklore and natural heritage again and fast You never know when the next outbreak will sweep your neighborhood It s important to strengthen your immune defenses of course But you also need to go on a short education course of learning what your antibiotic alternative options are To make it easy for you Dr Keith has compiled a comprehensive report of all the suitable alternatives with scientific studies to support them You ll be amazed just how many humble home remedies and plant based solutions have been studied scientifically and demonstrated to work effectively PLUS he has given you lots of very modern possibilities that were not even dreamed of in the era before antibiotics This is the AUTHORITY report you have been waiting for Dr Keith is well known for demanding minimum scientific standards not just myth wise woman stories and ignorant conjecture

previously unpublished manuscript in the National Library of Ireland is a valuable and deeply detailed edition of the diary kept by Casement during his journey into the South American rainforests. He had been sent by the British government to report on atrocities against tribal people while being forced to collect rubber in the Putumayo region in the north west Amazon. Genocide among the Amazon Indians has continued but external investigations of this kind have been rare. The way in which Roger Casement carried out his work is still relevant to all kinds of humanitarian and whistle blowing activities. It is also a key text charting Casement's transition from observer to anti imperial revolutionary and Irish independence leader culminating in his execution by the British government in August 1916 after the Easter Rising.
