House, 2003 Covers receipts and expenditures of appropriations and other funds The Treatment Trap Rosemary Gibson, Janardan Prasad Singh, 2010-03-16 With health reform enacted by the Congress and signed by the President the subject matter of The Treatment Trap is a compelling component in the national debate Taking advantage of Rosemary Gibson's knowledge gleaned from extended experience in the field of medical care and Janardan Singh's similar knowledge but from a financial perspective the authors explore the most neglected issue in American medicine today the overuse of medical care including needless surgery and other invasive procedures out of control x ray imaging profligate testing and other wasteful practices that have become routine among too many American doctors Their combined reporting and analysis concentrates on the human aspects of this disturbing trend in health care with personal experiences that reflect poorly on hospitals as well as physicians They show how money spent for questionable and even useless care is diverting major funds that could be better used to treat patients who are genuinely sick and sometimes cannot afford the extravagant charges of the American health care system Their suggestions for reforming the delivery of health care and their cautions to individual consumers about how to deal with situations they may encounter make The Treatment Trap essential reading for medical care consumers health care professionals and policymakers alike **A review of hospital billing and collections practices** United States.
