Hearing Haneke Elsie M. Walker, 2018 Michael Haneke's films subject us to extreme experiences of disturbance, desperation, grief, and violence. They are unsoftened by music, punctuated by accosting noises shaped by painful silences and charged with aggressive dialogue. The sound tracks are even more traumatic to hear than his stories are to see, but they also offer us the transformative possibilities of reawakened sonic awareness. Haneke's use of sound redefines cinema in ways that can help us re-hear everything, including our own voices and everything around us, better. Though Haneke's films make exceptional demands on us, he is among the most celebrated of living auteurs; he is two-time recipient of the Palme d'Or at Cannes Film Festival for *The White Ribbon* 2009 and *Amour* 2012, and Academy Award winner of Best Foreign Language Film for *Amour* along with numerous other awards. The radical confrontationality of his cinema makes him an internationally controversial as well as revered subject. *Hearing Haneke* is the first book-length study of the sound tracks that define this living legacy. This book explores the haunting, subversive, and political significance of all aural elements through Haneke's major feature films: dialogue, sound effects, silences, and music, all of which are meticulously conducted by him. Many critics read Haneke as coolly dispassionate about showing scenes of humanity under threat, but *Hearing Haneke* argues that all facets of his sound tracks stress humane understanding and the importance of compassion. This book provides exceptionally detailed analyses of all Haneke's most celebrated films, including *The Seventh Continent*, *Funny Games*, *Code Unknown*, *The Piano Teacher*, *Caché*, *The White Ribbon*, and *Amour*. The writing brings together film theory, musicology, history, and cultural studies in ways that resonate broadly. *Hearing Haneke* will matter to anyone who cares about the power of art to inspire progressive change.

M Sam Deighan, 2019-08-12 Fritz Lang's first sound feature *M* (1931) is one of the earliest serial killer films in cinema history and laid the foundation for future horror movies and thrillers.

particularly those with a disturbed killer as protagonist Peter Lorre's child killer Hans Beckert is presented as monstrous yet sympathetic building on themes presented in the earlier German Expressionist horror films like *The Cabinet of Dr Caligari* and *The Hands of Orlac* Lang eerily foreshadowed the rising fascist horrors in German society and transforms his cinematic Berlin into a place of urban terror and paranoia Sam Deighan explores the way Lang uses horror and thriller tropes in M particularly in terms of how it functions as a bridge between German Expressionism and Hollywood's growing fixation on sympathetic killers in the 40s The book also examines how Lang made use of developments within forensic science and the criminal justice system to portray a somewhat realistic serial killer on screen for the first time at once capturing how society in the 30s and 40s viewed such individuals and their crimes and shaping how they would be portrayed on screen in the horror films to come

Quentin Tarantino's Django Unchained Oliver C. Speck, 2014-07-31 *Django Unchained* is certainly Quentin Tarantino's most commercially successful film and is arguably also his most controversial Fellow director Spike Lee has denounced the representation of race and slavery in the film while many African American writers have defended the white auteur The use of extremely graphic violence in the film even by Tarantino's standards at a time when gun control is being hotly debated has sparked further controversy and has led to angry outbursts by the director himself Moreover *Django Unchained* has become a popular culture phenomenon with t-shirts highly contentious action figures posters and strong DVD BluRay sales The topic slavery and revenge the setting a few years before the Civil War the intentionally provocative generic roots Spaghetti Western and Blaxploitation and the many intertexts and references to German and French culture demand a thorough examination Befitting such a complex film the essays collected here represent a diverse group of scholars who examine *Django Unchained* from many perspectives

The Martial Arts Cinema of the Chinese Diaspora Kin-Yan Szeto, 2011-06-29 In *The Martial Arts Cinema of the Chinese Diaspora* Kin-Yan Szeto critically examines three of the most internationally famous martial arts film artists to arise out of the Chinese diaspora and travel far from their homelands to find commercial success in the world at large Ang Lee John Woo and Jackie Chan Posing the idea

that these filmmakers success is evidence of a cosmopolitical awareness arising from their cross cultural ideological engagements and geopolitical displacements Szeto demonstrates how this unique perspective allows these three filmmakers to develop and act in the transnational environment of media production distribution and consumption Beginning with a historical retrospective on Chinese martial arts films as a diasporic film genre and the transnational styles and ideologies of the filmmakers themselves Szeto uses case studies to explore in depth how the forces of colonialism Chinese nationalism and Western imperialism shaped the identities and work of Lee Woo and Chan Addressed in the volume is the groundbreaking martial arts swordplay film that achieves global success Ang Lee s *Crouching Tiger Hidden Dragon* and its revelations about Hollywood representations of Asians as well as concepts of male and female masculinity in the swordplay film tradition Also investigated is the invigoration of contemporary gangster thriller and war films by John Woo whose combination of artistic and historical contexts has contributed to his global success Szeto then dissects Chan s mimetic representation of masculinity in his films and the influences of his Chinese theater and martial arts training on his work Szeto outlines the similarities and differences between the three artists films especially their treatments of gender sexuality and power She concludes by analyzing their films as metaphors for their working conditions in the Chinese diaspora and Hollywood and demonstrating how through their works Lee Woo and Chan communicate not only with the rest of the world but also with each other Far from a book simply about three filmmakers *The Martial Arts Cinema of the Chinese Diaspora* investigates the transnational nature of films the geopolitics of culture and race and the depths of masculinity and power in movies Szeto s interdisciplinary approach calls for nothing less than a paradigm shift in the study of Chinese diasporic filmmakers and the embodiment of cosmopolitical perspectives in the martial arts genre
