Resources in Education ,1997 Thinking And Destiny Harold W. Percival,2002-04 In Thinking and Destiny
something new although older than time is now made known to the world about Consciousness The information is largely
about the makeup of the human where man comes from what becomes of him it explains what thinking is it tells how a
thought is created and how thoughts are exteriorized into acts objects and events and how they make his destiny Destiny is
thus shown to be self determined by thinking and the process of re existence and the after death states are told in detail A
single reading of any one chapter of Thinking and Destiny brings rich rewards in new understanding of life s puzzling
mysteries To read the entire book is to come nearer to knowledge of one s destiny and how to shape it than is possible
through study of anything previously written in the English language Both the casually curious glancer at books and the most
avid seeker for knowledge will be intrigued by the index which lists more than 400 subjects in Thinking and Destiny and by
the fifteen chapter headings in the Table of Contents which identify the 156 sections The Foreword contains the only pages in
