Connect Plus Access Card For Macroeconomics:

Loose-leaf Macroeconomics Principles + Connect Plus Access Card Campbell McConnell, Stanley Brue, Sean Flynn, 2010-02 McConnell and Brue's *Macroeconomics Principles Problems and Policies* is the leading *Principles of Macroeconomics* textbook. It continues to be innovative while teaching students in a clear unbiased way. The 18th Edition builds upon the tradition of leadership by sticking to 3 main goals: help the beginning student master the principles essential for understanding the economizing problem; specific economic issues and the policy alternatives help the student understand and apply the economic perspective and reason accurately and objectively about economic matters; and promote a lasting student interest in economics and the economy.

Handbook of Research on Strategic Fit and Design in Business Ecosystems Hacıoglu, Umit, 2019-08-30 With advancing information technology, businesses must adapt to more efficient structures that utilize the latest in robotics and machine learning capabilities in order to create optimal human-robot cooperation. However, there are vital rising concerns regarding the possible consequences of deploying artificial intelligence, sophisticated robotic technologies, automated vehicles, self-managing supply modes, and blockchain economies on business performance and culture, including how to sustain a supportive business culture and to what extent a strategic fit between human-robot collaboration in a business ecosystem can be created. *The Handbook of Research on Strategic Fit and Design in Business Ecosystems* is a collection of innovative research that builds a futuristic view of evolving business ecosystems and a deeper understanding of business transformation processes in the new digital business era. Featuring research on topics such as cultural hybridization, Industry 4.0, and cybersecurity, this book is ideally designed for entrepreneurs, executives, managers, corporate strategists, economists, IT specialists, IT consultants, engineers, students, researchers, and academicians seeking to improve their understanding of future competitive business practices with the adoption of robotic and information technologies.
