Reading for Our Lives Maya Payne Smart,2025-04-29 Completely revised and updated Now in paperback An award winning journalist and literacy advocate provides a clear step by step guide to helping your child thrive as a reader and a learner Today s children face intense pressure to meet rising academic standards and prepare for future careers but most fall dangerously short Early struggles with language and literacy often snowball into lasting disadvantages Millions of U S kids don t learn to read well in elementary school driving low adult literacy rates and threatening the nation s economic productivity public health and social equity In *Reading for Our Lives* journalist Maya Payne Smart shows that the literacy crisis starts at home Too many parents expect schools to unlock their child s reading potential unaware that even the best classroom instruction which most don t get can t make up for weak early preparation or inconsistent support outside of school Smart breaks down the latest research to show parents how to do their part to build essential literacy skills She busts the myth that bedtime stories are parents

greatest contribution to kids reading development She advocates instead for weaving a range of simple fun free literacy habits and activities into everyday family life and shows you how to do it With optimism and evidence Reading for Our Lives delivers a clear call to action and a path forward for families schools and communities to beat the literacy crisis together

Situated Language and Learning James Paul Gee,2012-10-02 Why do poor and minority students under perform in school Do computer games help or hinder learning What can new research in psychology teach our educational policy makers In this major new book Gee tackles the big ideas about language literacy and learning putting forward an integrated theory that crosses disciplinary boundaries and applying it to some of the very real problems that face educationalists today Situated Language and Learning looks at the specialist academic varieties of language that are used in disciplines such as mathematics and the sciences It argues that the language acquisition process needed to learn these forms of language is not given enough attention by schools and that this places unfair demands on poor and minority students The book compares this with learning as a process outside the classroom applying this idea to computer and video games and exploring the particular processes of learning which take place as a child interacts with others and technology to learn and play In doing so Gee examines what video games can teach us about how to improve learning in schools and engages with current debates on subjects such as communities of practice and digital literacies Bringing together the latest research from a number of disciplines Situated Language and Learning is a bold and controversial book by a leading figure in the field and is essential reading for anyone interested in education and language

Kids Talk Susan M. Hoyle,Carolyn Temple Adger,1998-09-10 Between early childhood and adulthood language acquisition is succeeded by a bloom of repertoire for managing interaction a growing sensitivity to the relation of language and society an expanding ability to wield power through the strategic use of language and an increasing sophistication in framing speech activities This book examines a wide range of language practices among school age children and teenagers using data from naturally occurring recorded talk and from careful observation of interaction in peer groups The contributors analyze talk at play at school and at work documenting the growing communicative skills of young people while always focusing on what young speakers themselves do with and through language Theoretical constructs to which the contributors appeal include Goffman s notion of footing and Hymes communicative competence as well as multiple characterizations of discourse structure The chapters show older children as strategic language users dynamic actors who are often concerned with defining themselves as a distinctive group different from adults yet who just as often display proficiency at sophisticated discourse activities that presage those of adulthood
