Because the authors include teachers from kindergarten to college, this book provides opportunities for vertical discussions of digital writing development as well as grade-level conversations about high-quality digital writing. The collection also includes an introduction and conclusion written by Hicks that provides context for the inquiry group's work and recommendations for assessment of digital writing. **Book Features** An adaptation of the Collaborative Assessment Conference protocol to help professional learning communities examine students' digital work. Detailed descriptions of students' digital writing, including the assessment process and implications for instruction. Links to the samples of student digital writing available online for further review and to be used as digital mentor texts. Building on his foundational work in helping us to embrace digital writing in the classroom, Hicks and his collaborators help us take the next step to becoming teachers who practice authentic assessment that supports students to learn through digital writing. This is the book and the thinking that advances our field.
