Eschatological Architecture and Liturgical Theatrics in New Spain

JAIME LARA

"This is a surprising detective story tracing the very complex paths and intersections of cultural, iconographical, and theological influences that formed the architecture and liturgical spaces of New Spain. I don't know of another scholar who has commanded this kind of knowledge about the Jewish, Christian, and Muslim streams of influence and interaction which appeared in the chapels, temples, and theatrical ritual spaces of Mexico." —David Carrasco, Harvard University

"This book is an outstanding contribution to the iconographic studies of Spanish American colonial architecture and urbanism. With great erudition and an impressive command of literary and visual sources, Lara sheds new light for a better understanding of the ideas behind the creation of magnificent urban settings and religious buildings which brought together for the first time native American and Western European traditions. His insightful eschatological reading of *City, Temple, and Stage* both as physical realities and ideological metaphors offers an important key for deciphering the multiple layers of meaning which they embodied as they mirrored two different world views that merged to create a new society in the Americas. A model of scholarly analysis and interpretation, this work sets a high standard and is an indispensable reference for future studies." —Dr. Humberto Rodríguez-Camillón, Virginia Tech
