The Law of Political Economy Poul F. Kjaer,2020-04-23 Political economy themes have directly and indirectly been a central concern of law and legal scholarship ever since political economy emerged as a concept in the early seventeenth century a development which was reinforced by the emergence of political economy as an independent area of scholarly enquiry in the eighteenth century as developed by the French physiocrats This is not surprising in so far as the core institutions of the economy and economic exchanges such as property and contract are legal institutions In spite of this intrinsic link political economy discourses and legal discourses dealing with political economy themes unfold in a largely separate manner Indeed this book is also a reflection of this in so far as its core concern is how the law and legal scholarship conceive of and approach political economy issues *The Idea of Economic Constitution in Europe* ,2022-06-08 Behind the controversies that have marked the history of the idea of Economic Constitution emerges the highly political issue of the room for manoeuvre left to public authorities in the economic sphere The notion thus encapsulates a fundamental tension between democracy and rule of law which model of legal ordering of the economy should prevail From physiocrats to neo liberals from the Weimar Republic to European integration from national constitutions to Global Governance this collective book invites us to explore the genealogy of the controversial concept of Economic Constitution The result of this interdisciplinary dialogue is a comprehensive reflection on the legal and political issues at stake in the current constitutionalization of the market order in Europe Contributors are Philippe Steiner Guillaume Gr goire Hugues Rabault Peter C Caldwell Thomas Biebricher Werner Bonefeld Serge Audier Vincent Valentin Pieter van Cleynenbreugel Xavier Miny

Frédéric Marty, Claire Mongouachon, Hans-Wolfgang Micklitz, Francesco Martucci, Michael Wilkinson, Hjalte Lokdam, Susanna Maria Cafaro, Peter Lindseth, Cristina Fasone, Pierre Nihoul, François Colly, Peter Christian Müller, Graff Tony Prosser, Damien Piron, Mahmoud Mohamed Salah, Stephen Gill, Thibault Biscarie, Sébastien Adalid, and Christian Joerges. *Derri-re les controverses qui jalonnent l'histoire de l'idée de Constitution économique : merge la question minemment politique de la marge de manœuvre laissée aux autorités publiques dans la sphère économique*. La notion cristallise ainsi une tension fondamentale entre démocratie et état de droit, quel doit être le modèle d'organisation et d'ordonnancement juridique de l'économie ? Des physiocrates aux néolibéraux de la République de Weimar à l'intégration européenne des constitutions nationales, la Global Governance. Cet ouvrage collectif nous invite désormais à explorer la généralisation du concept politique de Constitution économique. Les auteurs ouvrent alors, à travers un dialogue interdisciplinaire, constant une réflexion globale autour des enjeux juridiques et politiques du processus actuel de constitutionnalisation de l'ordre de marche en Europe.

EU Chemicals Regulation Steven Vaughan, 2015-07-31. This perceptive book provides an exploratory, explanatory and normative account of the EU Regulation on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and its regulator, the European Chemicals Agency (ECHA). **A New Narrative for a New Europe** Daniel Innerarity, Jonathan White, Cristina Astier, Ander Errasti, 2018-10-31. According to the European Commission, Europe is facing a transversal crisis that obliges the rethinking and redefinition of its narrative. As a result of the economic crisis that has affected Europe during the past years, Europe has in turn faced a structural crisis that forces the reconsideration of its own existence. The foundation of the European project, the promises of Democracy and Human Dignity, need to be assessed. The internal crisis and global challenges require a paradigm shift to establish a new foundation upon which to keep those promises alive. This crisis is multidimensional: environmental, cultural, political, social, economic, etc., and the European Union should tackle it as such. The book aims at contributing to that debate by offering a new conceptual approach to the core ideas of European integration: process, sovereignty, diversity, common challenges, etc. By doing so, the edited volume settles the ground for some institutional and legal transformations that may reflect this new narrative for a new Europe.

Invisible Institutionalisms Swetha S. Ballakrishnen, Sara Dezalay, 2021-02-11. Taking its cue from theoretical and ideological calls to challenge globalisation as a dynamic of homogenisation and resistance, as led from and directed against the Global North, this volume asks what can we see when we shift the lens beyond a North-South binary. Based on empirical studies of frontier zones of legal globalisation in India, Pakistan and Latin America, the book adopts an original format. Framed as a relational dialogue between newer as well as more prominent scholars within the field, from various cores through to postcolonial academic peripheries, it questions structural variables in the shadows of legal globalisation and how we as scholars build a space for critique.

Risk Regulation in the Internal Market Maria Weimer, 2019-03-13. This book offers a topical inquiry into the legal and political limits of EU regulation in the field of risk and new technologies, surrounded by techno-scientific complexity, uncertainty and

societal contestation It uses agricultural biotechnology as a paradigmatic example to illustrate the complex intertwinement between environmental public health economic and social concerns in risk regulation Weimer analyses the drawbacks of the EU approach to agricultural biotechnology showing that its reductionism i e the narrow understanding of GMO risks as well as the exclusion of broader societal concerns related to environmental and social sustainability has undermined both the legitimacy and effectiveness of EU regulation in this area Resistance to this approach however has also triggered legal innovations prompting us to re think EU internal market law including the way in which it manages the tensions between unity and diversity and between social and economic concerns This text offers fresh and original insights into how far the EU can go in harmonizing regulatory approaches to risk At the same time it proposes new ways of re thinking EU risk regulation to make it more responsive to different perspectives on risk and technology A unique feature of this book is that it contributes to various strains of scholarship including risk regulation internal market law public administration and studies of governance and regulation as well as connecting these themes to broader debates about the legitimacy of European integration and new ways of differentiated integration As a result it assists in re imagining the EU internal market and its regulation as a site of diversity
