By Grief Transformed Dreams And The Mourning Process:

By Grief Transformed Susan Olson, 2009-11 In her first year of training at the C G Jung Institute Zurich Susan Olson suffered the loss of her college age daughter in a hit and run auto accident *By Grief Transformed* describes her journey through mourning guided by a series of vivid and startling dreams Jung's understanding of the dream as a harbinger of fate a portent and comforter the messenger of the gods evolves from academic theory into embodied insight in this chronicle of one woman's encounter with the transforming power of grief classical and contemporary writers provide their unique perspectives The dreams and stories recounted in this book together with some provocative hints from Jung's work suggest that death may be the open door through which we pass into another dimension of reality In our dreams the dead offer glimpses of the realm beyond time and space and become our guides into that mysterious world *Images of the Dead in Grief Dreams* Susan Olson, 2020-06-15 While in training at the C G Jung Institute in Zurich in 1988 Susan Olson suffered the loss of her daughter in an auto accident In this intimate and unique exploration Olson uses C G Jung's psychological framework to describe her journey through tragedy guided by a series of vivid dreams In *Images of the Dead in Grief Dreams* A Jungian View of Mourning Jung's definition of the dream as a harbinger of fate a portent and comforter a messenger of the gods evolves from theory into embodied insight as Olson describes her encounter with the transforming power of grief Drawing from personal experience as well as theoretical and clinical material Olson presents premonitory dreams which occur before the loss of a loved one and grief dreams which follow a loved one's death and analyzes both according to Jung's method of dream interpretation Sharing her own dreams as well as those of other mourners Olson asserts that such dreams play a crucial role in the dreamer's emotional recovery and psychological development otherwise known as the process of individuation She sensitively offers an assessment of the stages of grief and draws on the Greek myth of Demeter and Persephone Jung's memoirs and other literature to amplify her experience of mourning In this rare combination of grief theory and dream work *Images of the Dead in Grief Dreams* is both a grief memoir and an extensive study of C G Jung's view of the mourning process This fully updated revised edition will be of immense interest to Jungian analysts and trainees academics psychologists students of Jungian dream analysis and to all who have suffered loss *I Can't Imagine* Susan Carlson, 2013-07-04 In August 2002 artist Susan Carlson's life was shattered by the sudden death of her 19 year old son From that moment in time all events became Before or After In intensely powerful and personal images the art work reproduced in this book follows Susan through her journey of grief and healing The most frequent expression of concern was I can't imagine the pain I can't imagine how you do it In depictions that cut to the heart of grief Susan opens the door for us to share her experience of loss She pulls back the cover on the often sanitized representations of grief offered to us in literature and art and allows us to connect to the center of the intensity of loss Those in grief often struggle for words that illuminate the depth of their experience resulting in isolation Through the viewing of this art grievers and those who assist them in their path have

found the affirmation connection and solace they need Susan shows us that together we can imagine and in doing so heal

Anna Magdalena Elsner, 2017-03-09 This study explores Proust s answers to some of the fundamental challenges of the inevitable human experience of mourning Thinking mourning and creativity together allows for a fresh approach to the modernist novel at large but also calls for a reassessment of the particular historical and social challenges faced by mourners at the beginning of the twentieth century The book enables the reader to acknowledge loss and forgetting as an essential part of memory and it proposes that this literary topos has seminal implications for an understanding of the ethics aesthetics and erotic in Proust s *A la recherche du temps perdu* Drawing on the works of Sigmund Freud and Jacques Derrida Anna Magdalena Elsner develops an original theory of how mourning and creativity are linked by emphasizing that ethical dilemmas are central to an understanding of the novel s final aesthetic apotheosis This sheds new light on the enigmatic and versatile nature of mourning but also pays tribute to those fertile tensions and paradoxes that have made Proust s novel
