Creative Curriculum Extenders Laurie Stoltmack Eaton, 2021-09-03 Creative Curriculum Extenders Projects for the Language Arts Classroom grades 3-5 is an easy to use source of reading and writing curriculum projects that help teachers differentiate instruction. Some of the categories that the projects cover are novels, poetry, fairy tales, autobiographies, descriptive communications, nonfiction, and more. Each page is graphically interesting and perfect to post on a bulletin board or in a learning center for enrichment or extra credit choices. Grades 3-5 **Student-Driven Differentiation** Lisa Westman, 2018-04-19 Conduct Orchestras, Not Trains. What if we understood that we can teach the important ideas and skills of the disciplines in a hundred different ways? And that students can learn them in a hundred different ways? Carol Ann Tomlinson. How can teachers create harmony in the classroom when the educational field is lacking tangible action plans for how to differentiate learning for every student? Full of just-in-time step-by-step guidance, *Student-Driven Differentiation: 8 Steps to Harmonize Learning in the Classroom* will show you how to incorporate student voice and choice in the process of planning for differentiation. This unique approach is based on building collaborative student-teacher relationships as a precursor to student growth. The result? Every student learns according to their own needs. Organized into three parts for quick reference, this book will lay the foundation for student-driven differentiation and identify the criteria for positive teacher-student relationships. Examine four areas for differentiated learning: content, process, product, and environment. Describe the process of planning and implementing student-driven differentiation. Motivate and support you in your student-driven differentiation journey. Provide unique examples and engaging vignettes throughout, including a fun project inspired by Shark Tank. *Student-Driven Differentiation* illustrates relevant real-life examples of authentic learning using student-driven differentiation as the foundation for these experiences. You'll also receive an 8-step roadmap outlining actionable strategies that will help you foster a culture of student-driven differentiation and student-driven leadership. **CUES: Choose, Use, Enjoy, Share** Phyllis B. Leonard, 1998-08-15 Calling for structured interaction between students and books, Leonard specifies how teachers and media specialists can collaborate to create a library/media-centered program that develops the talents of all K-6 students. The ultimate goal is to encourage reading and build reading comprehension, questioning, and thinking skills. Models, groupings, strategies, and materials are suggested in a grade-appropriate scope and sequence. The latest theories about the process of education, thinking, multiple intelligences, how children learn individually and cooperatively, as well as effective grouping and teaching strategies for differentiation are discussed. The book also has sample lessons and scenarios drawn from the author's experience.
