Crisis At The Polls An Electoral Reform Handbook:

Crisis at the Polls Robert M. Hardaway, 2008-08-30 Analyzes events in the electoral history of the United States to reveal the particular dynamics of democratic electoral systems that permit purportedly free and fair elections to subvert rather than express the public will

A Short History of Presidential Election Crises Alan Hirsch, 2020-02-27 An urgent primer on what can be done to combat emerging threats to the core of U S Democracy presidential elections In 2000 we learned that an exceptionally close presidential election can produce chaos because we have no reliable Constitutional mechanism for resolving disputes Joe Biden just won a presidential election that was extremely close in a number of states Trump and his many supporters refuse to accept the legitimacy of those vote results leading to an insurrection at the Capitol Building Where do we go from here In *A Short History* Constitutional scholar Alan Hirsch presents a concise history of presidential elections that resulted in crises and advocates clear common sense solutions including abolishing the Electoral College and the creation of a permanent non partisan Presidential Election Review Board to prevent or remedy future crises Hirsch does a very good job of offering historical context to illuminate the present and the terrifying future His imaginative proposals are probably too sensible to be implemented in an age of parochial partisanship David Shipler former reporter for the New York Times and Pulitzer Prize winner Democracy is broken but as Alan Hirsch explains it really doesn't have to be This is the real story of how our voting system became so vulnerable to attacks from within and without told with precision verve and even hope This is the way out Douglas Rushkoff author of *Team Human* This is a must read for anyone who cares about safeguarding presidential elections which should be everyone Evan Caminker Professor and former Dean University of Michigan Law School The noted law historian author of *Impeaching the President* examines the handful of seriously problematic presidential elections in American history and what the Constitution elucidates about the process of undoing such an event namely nothing A highly relevant study featuring much food for thought and prospects for change Kirkus Reviews Starred Review A seminal work of meticulous and informative scholarship that should be considered as an essential and unreservedly recommended addition to community college and university library Contemporary Political Science collections It should be noted for the personal reading lists of students academia political activists and non specialist general readers with an interest in the subject Midwest Library Review

Routledge Handbook on Elections in the Middle East and North Africa Francesco Cavatorta, Valeria Resta, 2023-03-31 This Handbook analyzes elections in the Middle East and North Africa and seeks to overcome normative assumptions about the linkage between democracy and elections Structured around five main themes contributors provide chapters detailing how their case studies illustrate specific themes within individual country settings Authors disentangle the various aspects informing elections as a process in the Middle East by taking into account the different contexts where the electoral contest occurs and placing these into a broader comparative context The findings from this Handbook connect with global electoral developments empirically demonstrating that there is

very little that is exceptional about the Middle East and North Africa when it comes to electoral contests Routledge Handbook on Elections in the Middle East and North Africa is the first book to examine all aspects related to elections in the Middle East and North Africa Through such comprehensive coverage and systematic analysis it will be a key resource for students and scholars interested in politics elections and democracy in the Middle East and North Africa **The campaign guide, an election handbook for Unionist speakers** National union of conservative associations for Scotland,1900
