research in the field but without using technical language current practical methods of working with children at risk or those who may potentially be at risk The focus is on working with children in groups helping day care workers and substitute parents to minimize or remediate the at risk factor in the children in their care The book also addresses parents of these children and emphasizes the need for cooperation between day care workers and them so that child care providers can effectively convey the skills presented here There is also a chapter on approaches to working with special children such as children with autism and those with physical or neurological impairments This informative and sensitive book will be useful in advancing the training of workers in infant and early child care settings *The Guatemala Community Day Care Program*
