Colonial Fantasies Colonial Fantasies:

Colonial Fantasies Meyda Yegenoglu, 1998-04-30 In this 1998 book Meyda Yegenoglu investigates the intersection between post colonial and feminist criticism focusing on the Western fascination with the veiled women of the Orient She examines the veil as a site of fantasy and of nationalist ideologies and discourses of gender identity analyzing travel literature anthropological and literary texts to reveal the hegemonic colonial identity of the desire to penetrate the veiled surface of otherness Representations of cultural difference and sexual difference are shown to be inextricably linked and the figure of the Oriental woman to have functioned as the veiled interior of Western identity *Colonial Fantasies* Susanne

Zantop, 1997-09-10 Since Germany became a colonial power relatively late postcolonial theorists and histories of colonialism have thus far paid little attention to it Uncovering Germany's colonial legacy and imagination Susanne Zantop reveals the significance of colonial fantasies a kind of colonialism without colonies in the formation of German national identity Through readings of historical anthropological literary and popular texts Zantop explores imaginary colonial encounters of Germans with natives in late eighteenth and early nineteenth century literature and shows how these colonial fantasies acted as a rehearsal for actual colonial ventures in Africa South America and the Pacific From as early as the sixteenth century Germans preoccupied themselves with an imaginary drive for colonial conquest and possession that eventually grew into a collective obsession Zantop illustrates the gendered character of Germany's colonial imagination through critical readings of popular novels plays and travel literature that imagine sexual conquest and surrender in colonial territory or love and blissful domestic relations between colonizer and colonized She looks at scientific articles philosophical essays and political pamphlets that helped create a racist colonial discourse and demonstrates that from its earliest manifestations the German colonial imagination contained ideas about a specifically German national identity different from if not superior to most others

Fantasies Imperial Realities Lenny Ure a Valerio offers a transnational approach to Polish German relations and nineteenth century colonial subjectivities She investigates key cultural dynamics in the history of medicine colonialism and migration that bring Germany and Prussian Poland closer to the colonial and postcolonial worlds in Africa and Latin America She also analyzes how Poles in the German Empire positioned themselves in relation to Germans and native populations in overseas colonies She thus recasts Polish perspectives and experiences allowing new insights into identity formation and nationalist movements within the German Empire Crucially Ure a Valerio also studies the medical projects and scientific ideas that traveled from colonies to the German metropole and vice versa which were influential not only in the racialization of Slavic populations but also in bringing scientific conceptions of race to the everydayness of the German Empire As a whole Colonial Fantasies Imperial Realities illuminates nested imperial and colonial relations using sources that range from medical texts and state documents to travel literature and fiction By studying these scientific and political debates Ure a Valerio uncovers novel ways to connect medicine migration and colonialism and provides an invigorating model for the analysis of Polish history from a global perspective

Germany's Colonial Pasts Eric Ames, Marcia Klotz, Lora Wildenthal, 2005-12-01 Germany's Colonial Pasts is a wide ranging study of German colonialism and its legacies Inspired by Susanne Zantop's landmark book Colonial Fantasies and extending her analyses there this volume offers new research by scholars from Europe Africa and the United States It also commemorates Zantop's distinguished life and career 1945-2001 Some essays in this volume focus on Germany's formal colonial empire in Africa and the Pacific between 1884 and 1914 while others present material from earlier or later periods such as German emigration before 1884 and colonial discourse in German ruled Polish lands Several essays examine Germany's postcolonial era a complex period that includes the Weimar Republic Nazi Germany with its renewed colonial obsessions and the post 1945 era Particular areas of emphasis include the relationship of anti-Semitism to colonial racism respectability sexuality and cultural hierarchies in the formal empire Nazi representations of colonialism and contemporary perceptions of race The volume's disciplinary reach extends to musicology religious studies film and tourism studies as well as literary analysis and history These essays demonstrate why modern Germany must confront its colonial and postcolonial pasts and how those pasts continue to shape the German cultural imagination

The Dada Cyborg Matthew Biro, 2009 In an era when technology biology culture are becoming ever more closely connected The Dada Cyborg explains how the cyborg as we know it today developed between 1918-1933 as German artists gave visual form to their utopian hopes fantasies in a fearful response to World War I

Imperialist Imagination Sara L. Friedrichsmeyer, Sara Lennox, Susanne M. Zantop, 2025-10-01 Race relations are a controversial topic in today's Germany Have Germans learned from the past How far back must one go to understand the tensions prejudices and strategies that have marked race relations in the recently unified nation The Imperialist Imagination explores the German preoccupation with racial and ethnic differences throughout the past two centuries in a colonial and postcolonial context Germany's belated national unification in 1870 its short colonial

period 1884 1918 and the loss of its colonies as a consequence of World War I rather than through wars of liberation generated very different colonial and postcolonial conditions from those in Britain and France This volume s sixteen essays investigate how as a consequence of these conditions Germans imagined their relationship to racial and ethnic others how they supported and contested colonization during the colonial period how their colonial fantasies fed into the Nazis racial and expansionary policies after the loss of German colonies and how they represent their relationship to German minorities and foreigners within and outside Germany today The contributors include scholars in literature history art history political science philosophy ethnography film popular culture photography and theater The anthology will appeal not only to Germanists but to all those interested in postcolonial and cultural studies Sara Friedrichsmeyer is Professor of German University of Cincinnati Sara Lennox is Professor of German University of Massachusetts Susanne Zantop is Professor of German and Comparative Literature Dartmouth College

Colonialism and the Jews in German History Stefan Vogt, 2022-06-16 Colonialism and the Jews in German History brings together new and path breaking studies on the historical relationship between colonialism and the Jews in Germany The book considers the mutual influences on the situation of the Jews in Germany including attitudes towards Jews and anti-Semitism but also Jewish self conceptions and the ideology and politics of German colonialism The contributors discuss the ways in which colonial ideology and practice have affected the position of the Jews in Germany and the relationship between anti-Semitism and colonial racism In doing so the volume introduces German colonialism as a relevant context for German Jewish history and it expands the perspective on German colonial history significantly by considering Jews both as distinct objects and also as agents within the field of German colonialism The volume includes studies on the pre colonial era the phase of active German colonialism since the 1880s and the time after Germany lost its colonies in the First World War All these studies testify to the fact that German Jewish history takes on additional significance if seen as part of a global history of collective relationships

Specters of the Marvelous Kimberly J. Lau, 2024-12-10 Here Lau provides a new framework for understanding European fairy tales in the milieus in which they were created bringing distant and ethereal worlds back to earth

Ontology and Ethics Adam C. Clark, Michael Mawson, 2013-08-27 Recent scholarship in a number of disciplines has explored the relationship between ontology and ethics The essays in this collection indicate what the German theologian Dietrich Bonhoeffer 1906 1945 has to contribute to this discussion By engaging the breadth of his academic and pastoral writings these essays retrieve Bonhoeffer s theology for a contemporary audience They do so by critically clarifying and extending key concepts developed by Bonhoeffer across his corpus and in dialogue with Hegel Heidegger Dilthey Barth and others They also create dialogues between Bonhoeffer and more recent figures like Levinas Agamben Foucault and Lacoste Finally they take up pressing contemporary ethical issues such as globalization managerialism and racism
