Dr. Lonnie G. Ford

Color By Number Secret Picture Multiplication:

Color Expressions: an Art Educational Voyage Dr. Lonnie G. Ford, 2009-08-28 Several years ago I enrolled in a graduate course on educational research that focused on closing the achievement gap for African American children. The course was structured to explore issues, causes, and concerns for the achievement gap. Studying different educational outcomes, reading books and articles, we regularly shared our insights about some leading causes. Most importantly, we were instructed to stay within our subject areas when finding any contributions to that gap. In my attempt to complete the assignment of researching possible causes in my discipline of art education, I found myself frustrated and angry. Why? There were no research studies exploring how art education was a part of the equation leading to solutions in closing the gap. In addition, there were no basic instructions or curricula designed to make connections to the art student to develop critical thinking skills or to incorporate the use of students' life experiences for learning. Furthermore, I felt that art education was used as a testing ground in urban schools like the Chicago Public Schools using Teaching Artists to teach art with no teaching certification or teaching qualifications. Booth 2003. The purpose of this approach was to use their knowledge and practices of art to influence change in students' learning. This kind of experiment branched away from any real effort to integrate art education and truly recognize it as a viable core subject area. While conducting research for the course, I found that researchers defined the achievement gap between white and African American students solely in terms of the four core subjects of math, science, social studies, and language arts, with no attention given to art education. e.g. Berlak 2001, Honig 2001, Limn 2000, Sacks 2000. A study by the National Black Caucus, entitled "Closing the Achievement Gap: Improving Education Outcomes for African American Children," November 2001, reports: "Make improving the literacy skills of students a top priority. Students who cannot read will experience little success in school. Reading is the key to academic achievement in every subject, ranging from math and English to science and history. We must put reading first by finding initiatives and programs designed to strengthen the reading skills of students, particularly low performing students." Again, there was no mention of art. As both an African American and an art teacher, I found it very disturbing that the recommendations of many national and local art educational organizations and schools failed to address the importance of teaching art education in African American urban school settings. My dissertation research ultimately arose from this concern.

Multiplication Facts: Tips, Tricks & Strategies Gr. 2-5 Anastasia Silver, Students find learning multiplication facts challenging, so we developed this step by step approach to make things as easy as possible. We start with the easiest facts and build on prior knowledge to achieve the hardest facts to learn. The student friendly worksheets are jam packed with rhymes and other tricks and tips to help students remember what they've learned. Fun activities for visual and musical learners are included with drills for practice. Supports Common Core Standards for Mathematics Gr 3-4. 80 pages. [What Shall I Do Now, Teacher?](#) (Gr. 2), **Films and Other Materials for Projection** Library of Congress, 1973 *Catalog of Copyright Entries* Library

of Congress. Copyright Office,1970 **Counting Your Way Through 1-2-3** Cathie Hilterbran Cooper,1997 A comprehensive annotated guide to 663 counting books divided into ten subject areas Each section includes a description of the subject area an annotated bibliography of related books and a number of activities that can be used in connection with counting and math books Reproducible activity pages are included in each section Best Buy Bargain Math Activities, Grades 2-3 School Specialty Publishing,Carson-Dellosa Publishing,2001-09-11 With over 125 pages these activity books are truly a best buy Reproducible pages can be used individually or as part of a unit Use for reinforcement activities or as homework Answer pages are included Over 125 pages Math Activities Fun activities help students learn a variety of math skills from beginning counting place value and measurement to division fractions and geometry Best selling Series **I Can Master Multiplication, Grades 3 - 4** ,2013-01-02 Help struggling math students master Multiplication with this fun activity book with content aligned to Common Core State Standards Engage students with mazes hidden pictures crosswords number searches riddles codes color by numbers and more while reinforcing basic math skills **National Union Catalog** ,1973 Includes entries for maps and atlases **Activity Math: Grades 4-6** Anne M. Bloomer,1993

Delve into the emotional tapestry woven by Emotional Journey with in Experience **Color By Number Secret Picture Multiplication** . This ebook, available for download in a PDF format (PDF Size: *), is more than just words on a page; itis a journey of connection and profound emotion. Immerse yourself in narratives that tug at your heartstrings. Download now to experience the pulse of each page and let your emotions run wild.
