Diaspora Conversions Black Carib Religion And The Recovery Of Africa:

Diaspora Conversions Paul Christopher Johnson, 2007-09-03 I am extremely impressed by Johnson's book *Diaspora Conversions* offers an outstanding combination of theoretical acuity, erudition and ethnographic prowess. It is bound to become highly influential in the study of religion in motion. Manuel A. Vasquez, co-author of *Globalizing the Sacred: Religion Across the Americas*. Johnson's work bursts through the present conversations on African diaspora and brings us onto entirely new ground, shattering simplistic ideas and replacing them with critical distinctions. This smart and talented ethnographer succeeds in combining detailed and rich ethnographic fieldwork with an unrelentingly critical and sophisticated analysis. Johnson's work brings to life one of the most central, perhaps the most central, classic question of African American anthropology: How is Black culture constituted even through dislocation and displacement? Elizabeth McAlister, author of *Rara Vodou: Power and Performance in Haiti and Its Diaspora*. *Diasporic Conversions* convincingly breaks new ground by showing how the meaning of homeland is fundamentally a product of historically situated and contested forms of collective imagination. What will make Johnson's book a benchmark in the study of the African diaspora and diasporic situations more generally is that it is not just a richly documented and rigorously argued ethnography but a genuine anthropology of historical consciousness. Stephan Palmi, author of *Wizards and Scientists: Explorations in Afro-Cuban Modernity and Tradition*.

Embodying Black Religions in Africa and Its Diasporas Yolanda Covington-Ward, Jeanette S. Jouli, 2021-08-09 The contributors to *Embodying Black Religions in Africa and Its Diasporas* investigate the complex intersections between the body, religious expression and the construction and negotiation of social relationships and collective identities throughout the Black diaspora. **Africas of the Americas**, 2008-03-31 The anthropology and history of African American religious formations has long been dominated by approaches aiming to recover and authenticate the historical transatlantic continuities linking such traditions to identifiable African source cultures. While not denying such continuities, the contributors to this volume seek to transcend this research agenda by bracketing Africa and African pasts as objective givens and asking instead what role notions of Africanness and pastfulness play in the social and ritual lives of historical and contemporary practitioners of Afro-Atlantic religious formations. The volume's goal is to open up contextually salient claims to African origins to empirical scrutiny and so contribute to a broadening of the terms of debate in Afro-Atlantic studies.

Diasporas Professor Kim Knott, Doctor Sean McLoughlin, 2013-04-04 Featuring essays by world-renowned scholars, *Diasporas* charts the various ways in which global population movements and associated social, political and cultural issues have been seen through the lens of diaspora. Wide-ranging and interdisciplinary, this collection considers critical concepts shaping the field such as migration, ethnicity, post-colonialism and cosmopolitanism. It also examines key intersecting agendas and themes including political economy, security, race, gender and material and electronic culture. Original case studies of contemporary as well as classical diasporas are featured, mapping new directions in research and testing the usefulness of

diaspora for analyzing the complexity of transnational lives today Diasporas is an essential text for anyone studying working or interested in this increasingly vital subject *Building Noah's Ark for Migrants, Refugees, and Religious Communities* Jin-Heon Jung,2015-06-03 *Building Noah's Ark for Migrants Refugees and Religious Communities* examines religion within the framework of refugee studies as a public good with the spiritual and material use of religion shedding new light on the agency of refugees in reconstructing their lives and positioning themselves in hostile environments *Creole Religions of the Caribbean, Third Edition* Margarite Fernández Olmos,Lizabeth Paravisini-Gebert,2022-08-23 An updated introduction to the religions developed in the Caribbean region *Creole Religions of the Caribbean* offers a comprehensive introduction to the overlapping religions that have developed as a result of the creolization process Caribbean peoples drew on the variants of Christianity brought by European colonizers as well as on African religious and healing traditions and the remnants of Amerindian practices to fashion new systems of belief From Vodou Santería Regla de Palo the Abakuá Secret Society and Obeah to Quimbois and Espiritismo the volume traces the historical cultural origins of the major Creole religions as well as the newer traditions such as Rastafari This third edition updates the scholarship by featuring new critical approaches that have been brought to bear on the study of religion such as queer studies environmental studies and diasporic studies The third edition also expands the regional considerations of the diaspora to the US Latinx communities that are influenced by Creole spiritual practices taking into account the increased significance of material culture art music literature and healing practices influenced by Creole religions *Research Handbook on the Sociology of Globalization* Christian Karner,Dirk Hofäcker,2023-07-01 This *Research Handbook* takes stock of the state of the art in sociological research on globalization and the contributors outline future trajectories for this one of the most pressing and challenging sociological themes of our time *Africans on the Move* Fasil Demissie,2016-03-17 The 20th century witnessed the large scale displacement and dispersal of populations across the world because of major political upheavals among them the two European wars decolonization and the Cold War These major events were followed by globalization which accelerated free trade and the mobility of capital new technologies of communication and the movement of people commodities ideas and cultures across the world This book explores the complexity of African migration and diaspora the discourse of diaspora engagement and new models of citizenship and transnationalism in the context of these issues This book was originally published as a special issue of *African and Black Diaspora: An International Journal* *Armenian Christianity Today* Dr Alexander Agadjanian,2014-10-28 *Armenian Christianity Today* examines contemporary religious life and the social political and cultural functions of religion in the post Soviet Republic of Armenia and in the Armenian Diaspora worldwide Scholars from a range of countries and disciplines explore current trends and everyday religiosity particularly within the Armenian Apostolic Church AAC and amongst Armenian Catholics Protestants and vernacular religions *The Caribbean* Stephan Palmié,Francisco A. Scarano,2022-12-22 An illuminating survey of Caribbean history from pre Columbian times to the twenty first century *Los Angeles Times*

Combining fertile soils vital trade routes and a coveted strategic location the islands and surrounding continental lowlands of the Caribbean were one of Europe's earliest and most desirable colonial frontiers. The region was colonized over the course of five centuries by a revolving cast of Spanish, Dutch, French, and English forces who imported first African slaves and later Asian indentured laborers to help realize the economic promise of sugar, coffee, and tobacco. *The Caribbean: A History of the Region and Its Peoples* offers an authoritative one-volume survey of this complex and fascinating region. This groundbreaking work traces the Caribbean from its pre-Columbian state through European contact and colonialism to the rise of U.S. hegemony and the economic turbulence of the twenty-first century. The volume begins with a discussion of the region's diverse geography and challenging ecology and features an in-depth look at the transatlantic slave trade, including slave culture, resistance, and ultimately emancipation. Later sections treat Caribbean nationalist movements for independence and struggles with dictatorship and socialism, along with intractable problems of poverty, economic stagnation, and migrancy. Written by a distinguished group of contributors, *The Caribbean* is an accessible yet thorough introduction to the region's tumultuous heritage which offers enough nuance to interest scholars across disciplines. In its breadth of coverage and depth of detail, it will be the definitive guide to the region for years to come. Praise for *The Caribbean*: The editors of this volume have successfully assembled a survey of historical and contemporary issues which serves as an excellent introductory text for newcomers to the region as well as a resource for more experienced researchers searching for a concise reference to any historical period. *Journal of Caribbean History*. This collection provides an engaging introduction to the history of a region defined by centuries of colonial domination and popular struggle. In these essays, readers will recognize the Caribbean as a garden of social catastrophe and a grim incubator of modern global capitalism, as well as of people's continuous attempts to resist, endure, or adapt to it. Scholars and students will find it to be a very useful handbook for current thinking on a vital topic. Vincent Brown, professor of history and of African and African American studies, Duke University.
