Dictionary Of Marxist Thought:

A Dictionary of Marxist Thought Tom Bottomore, 1992-04-08 Part dictionary and part encyclopedia this book has become the standard reference work on the concepts of Marxism and the individuals and schools of thought that have subsequently contributed to the body of Marxist ideas

Encyclopaedia of Marxism and Education , 2022-02-14 This encyclopaedia showcases the explanatory power of Marxist educational theory and practice The entries have been written by 51 leading authors from across the globe The 39 entries cover an impressive range of contemporary issues and historical problematics The editor has designed the book to appeal to readers within the Marxism and education intellectual tradition and also those who are curious newcomers as well as critics of Marxism The Encyclopaedia of Marxism and Education is the first of its kind It is a landmark text with relevance for years to come for the productive dialogue between Marxism and education for transformational thinking and practice

Critical Realism for Marxist Sociology of Education Grant Banfield, 2015-09-16 This book offers a critical realist intervention into the field of Marxist Sociology of Education Critical realism as developed by British philosopher Roy Bhaskar is known for its capacity to serve as a conceptual underlabourer to applied fields like education Indeed its success in clarifying and resolving thorny issues of educational theory and practice is now well established Given critical realism s sympathetic Marxist origins its productive and critical engagement with Marxism has an even longer history To date there has been little sustained attention given to the application of critical realism to Marxist educational praxis The book addresses this gap in existing scholarship Its conceptual ground clearing of the field of Marxist Sociology of Education centres on two problematics well known in the social sciences naturalism and the structure agency relation Marxist theory from the days of Marx to the present is shown to also be haunted by these problematics This has resulted in considerable tension around the meaning and nature of for example reform revolution class determinism and class struggle With its emergence in the 1970s as a child of Western Marxism the field continues to be an expression of these tensions that seriously limit its transformative potential Addressing these issues and offering conceptual clarification in the interests of revolutionary educational practice *Critical Realism for Marxist Sociology of Education* provides a new perspective on education which will be of interest to students scholars and practitioners alike

Marx and We Sun Zhengyu, 2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations

Chinese Dialectics Chenshan Tian, 2005-01-01 The history of Chinese Marxist thought is intimately

intertwined with ancient autochthonous philosophical texts In Chinese Dialectics the complete intellectual history of Chinese Marxism is laid bare **The Marx Through Lacan Vocabulary** Christina Soto van der Plas, Edgar Miguel

Juárez-Salazar, Carlos Gómez Camarena, David Pavón-Cuéllar, 2022-04-24 This text explores a set of key concepts in Marxist theory as developed and read by Lacan demonstrating links and connections between Marxist thought and Lacanian practice The book examines the complexity of these encounters through the structure of a comprehensive vocabulary which covers diverse areas from capitalism and communism to history ideology politics work and family Offering new perspectives on these concepts in psychoanalysis as well as in the fields of political and critical theory the book brings together contributions from a range of international experts to demonstrate the dynamic relationship between Marx and Lacan as well as illuminating untranslatable points which may offer productive tension between the two The entries trace the trajectory of Lacan's appropriation of Marx's concepts and analyses how they were questioned criticized and reworked by Lacan accounting for the wide reach of two thinkers and worlds in constant homology Each entry also discusses psychoanalytic debates relating to the concept and seeks to refine the clinical scope of Marx's work demonstrating its impact on the social and individual dimensions of Lacanian clinical practice With a practical and structured approach The Marx through Lacan Vocabulary will appeal to psychoanalysts and researchers in a range of fields including political science cultural studies and philosophy Postcolonialism and Political Theory Nalini Persram, 2007-01-01 Postcolonialism and Political Theory explores the intersection between the political and the postcolonial through an engagement with critique of and challenge to some of the prevalent restrictive tenets and frameworks of Western political and social thought It is a response to the call by postcolonial studies as well as to the urgent need within world politics to turn towards a multiplicity largely excluded from globally dominant discourses of community subjectivity power and prosperity constituted by otherness radical alterity or subordination to the newly reconsolidated West The book offers a diverse range of essays that re-examine and open the boundaries of political and cultural modernity's historical domain that look at how the racialized and gendered and cultured subject visualizes the social from elsewhere that critique the limits of postcolonial theory and its claim to celebrate diversity and that complicate the notion of postcolonial politics within settler societies that continue to practice exile of the indigenous Postcolonialism and Political Theory is an ideal book for graduate and advanced undergraduate level study and for those working both disciplinarily and interdisciplinarily both inside and outside academia *The Defetishized Society* Chris Wyatt, 2011-09-29 New Economic Democracy establishes a self governing civil society unifying the private sphere of production and the public sphere of citizenship within a non-statist scheme of communal ownership It provides the premises to seeking a solution to Marx's fetishism of commodities Only a thorough restructuring of the economic and political institutions can provide the social climate in which the phenomenon of fetishism can be transcended Defetishizing the commodity implies reversing the concealment of the social relations through which commodities are produced and

preventing the tendency to bestow magical characteristics to commodities The key imperative to the defetishized society is a system of genuinely democratic institutions iprovides this necessary corrective and also challenges the prediction that politico economic organizations like worker cooperatives are destined to be dominated by the dictates of oligarchs The explanatory approach of Marx s concepts combined with an original argument will make the book a valuable research tools to students and researchers in political theory democratic theory and political economy

Understanding Classical Sociology John A Hughes,Wes Sharrock,Peter J Martin,2003-03-18 Praise for the First Edition Totally reliable the authors have produced a book urgently needed by all those charged with introducing students to the classics quite indispensable Times Higher Education Supplement This is a fully updated and expanded new edition of the successful undergraduate text Providing a lucid examination of the pivotal theories of Marx Durkheim and Weber the authors submit that these figures have decisively shaped the discipline They show how the classical apparatus is in use even though it is being directed in new ways in response to the changing character of society Written with the needs of undergraduates in mind the text is essential reading for students in sociology and social theory

Capitalism in the Anthropocene John Bellamy Foster,2022-08-23 Over the last 11 700 years during which human civilization developed the earth has existed within what geologists refer to as the Holocene Epoch Now science is telling us that the Holocene Epoch in the geological time scale ended replaced by the onset of a new more dangerous Anthropocene Epoch which began around 1950 The Anthropocene Epoch is characterized by an anthropogenic rift in the biological cycles of the Earth System marking a changed reality in which human activities are now the main geological force impacting the earth as a whole generating at the same time an existential crisis for the world s population What caused this massive shift in the history of the earth In this comprehensive study John Bellamy Foster tells us that a globalized system of capital accumulation has induced humanity to foul its own nest The result is a planetary emergency that threatens all present and future generations throwing into question the continuation of civilization and ultimately the very survival of humanity itself Only by addressing the social aspects of the current planetary emergency exploring the theoretical historical and practical dimensions of the capitalism s alteration of the planetary environment is it possible to develop the ecological and social resources for a new journey of hope
