Pomo Oz Niall Lucy, 2010-03-01 Demonstrating how ideas are in short supply and critical thinking is under attack in the present day this unique study pits the author's brand of humor and intellect against conservative power brokers Arguing the notion that free thought not free trade is the basis of democracy these exciting and provocative essays engage with the most contentious issues of today *Timothy Findley's Novels Between Ethics and Postmodernism* Dagmar Krause, 2005 Timothy Findley 1930-2002 is one of the most important contemporary Canadian writers His novels have been classified as postmodern exhibiting characteristic features such as parody historiographic metafiction and hybrid genres This classification of Findley as a postmodern writer however largely neglects the fact that Findley is deeply committed to the exploration of certain ethical and political themes Recurring topics in his work are for instance fascism environmental concerns and the problem of responsibility Sparked off by the fascinating question of how postmodernism and ethics can be reconciled at all and inspired by the so called ethical turn in the literary theory of the 1990s this study supplies a closer look at Findley's ethics with regard to its postmodern potential A detailed analysis of five of his novels *The Wars Famous Last Words Not Wanted on the Voyage The Telling of Lies and Headhunter* explores the ethical dimension of Findley's work and its consequences for his categorization as a postmodern writer *Faith in Life* Donald J. Morse, 2019-01-29 This is the first book to consider John Dewey's early philosophy on its own terms and to explicate its key ideas It does so through the fullest treatment to date of his youthful masterwork *The Psychology* This fuller treatment reveals

that the received view which sees Dewey's early philosophy as unimportant in its own right is deeply mistaken. In fact Dewey's early philosophy amounts to an important new form of idealism. More specifically Dewey's idealism contains a new logic of rupture which allows us to achieve four things: A focus on discontinuity that challenges all naturalistic views including Dewey's own later view; A space of critical resistance to events that is at the same time the source of ideals; A faith in the development of ideals that challenges pessimists like Schopenhauer and Nietzsche; and A non-traditional reading of Hegel that invites comparison with cutting edge Continental philosophers such as Adorno, Derrida and Žižek and even goes beyond them in its systematic approach. In making these discoveries the author forges a new link between American and European philosophy showing how they share similar insights and concerns. He also provides an original assessment of Dewey's relationship to his teacher George Sylvester Morris and to other important thinkers of the day giving us a fresh picture of John Dewey the man and the philosopher in the early years of his career. Readers will find a wide range of topics discussed from Dewey's early reflections on Kant and Hegel to the nature of beauty, courage, sympathy, hatred, love and even death and despair. This is a book for anyone interested in the thought of John Dewey, American pragmatism, Continental Philosophy or a new idealism appearing on the scene.
