Sleepyhead Henry Nicholls, 2018-09-04 A narcoleptic s tireless journey through the neuroscience of disordered sleep Whether it s a bout of bad jet lag or a stress induced all nighter we ve all suffered from nights that left us feeling less than well rested But for some people getting a bad night s sleep isn t just an inconvenience it s a nightmare In Sleepyhead science writer Henry Nicholls uses his own experience with chronic narcolepsy as a gateway to better understanding the cryptic curious and relatively uncharted world of sleep disorders We meet insomniacs who can t get any sleep narcoleptics who can t control when they sleep and sleep apnea victims who nearly suffocate in their sleep We learn the underlying difference between morning larks and night owls why our sleeping habits shift as we grow older and the evolutionary significance of REM sleep and dreaming Charming eye opening and deeply humanizing Sleepyhead will help us all uncover the secrets of a good night s sleep

Integrative Neurology John W. McBurney, Ilene S. Ruhoy, 2020 Dementia Parkinson s Disease headache and neuropathy are all conditions for which narrowly focused medical interventions all too often fall short The first book in its field Integrative Neurology synthesizes complementary modalities with state of the art medical treatment to offer a new vision for neurological care The authors

begin by looking inward at the crisis of stress and burnout that confronts all of medicine but neurology in particular. It goes on to provide a selective yet in depth review of important topics in neurological practice from the perspective of integrative medicine. Taking an evidence based approach throughout, chapters cover chronic diseases such as Multiple Sclerosis, Dementia and Parkinson's Disease. The volume also addresses clinical issues such as headache, traumatic brain injury, navigating the endocannabinoid system and aging, nutrition and stroke, neuropathy, toxins and neurodevelopment as well as the modalities of Ayurvedic Medicine and acupuncture. Integrative medicine is defined as a healing oriented medicine that takes account of the whole person, body, mind and spirit as well as all aspects of lifestyle. It emphasizes the therapeutic relationship and makes use of appropriate therapies both conventional and alternative. Series editor Andrew Weil MD is Professor and Director of the Arizona Center for Integrative Medicine at the University of Arizona. Dr. Weil's program was the first such academic program in the US and its stated goal is to combine the best ideas and practice of conventional and alternative medicine into cost effective treatments without embracing alternative practices uncritically.

Integrative Therapies in Lung Health and Sleep Linda Chlan, Marshall I. Hertz, 2012-01-06. Integrative Therapies in Lung Health and Sleep provides an overview of integrative therapies to assist clinicians caring for patients with acute or chronic lung diseases and sleep disorders, emphasizing the scientific bases for these therapies and their implementation into clinical practice. This volume focuses on complementary and alternative medicine (CAM) treatments, modalities and practices that are integrated with conventional medical treatment and for which there is some evidence of safety and efficacy. Whole Medical Systems with a specific focus on Traditional Chinese Medicine are also addressed. Individual chapters are devoted to specific health conditions or illnesses, addressing the current state of the science in the four organizing CAM domains including available information regarding benefits, risks or safety considerations. Unique aspects of this volume are the chapters related to evaluation of the evidence base for integrative therapies, new animal model research with herbal preparations, focused on the serious problem of sepsis in the ICU, guidance for counseling patients with chronic lung illnesses who may be desperate for a cure and palliative and end of life care for patients with chronic lung conditions. Clinicians in various health care settings will find Integrative Therapies in Lung Health and Sleep beneficial in their practice, particularly as the use of integrative therapies becomes more widespread.

Probability, Statistics, and Data Darrin Speegle, Bryan Clair, 2021-11-25 This book is a fresh approach to a calculus based first course in probability and statistics using R throughout to give a central role to data and simulation The book introduces probability with Monte Carlo simulation as an essential tool Simulation makes challenging probability questions quickly accessible and easily understandable Mathematical approaches are included using calculus when appropriate but are always connected to experimental computations Using R and simulation gives a nuanced understanding

of statistical inference The impact of departure from assumptions in statistical tests is emphasized quantified using simulations and demonstrated with real data The book compares parametric and non parametric methods through simulation allowing for a thorough investigation of testing error and power The text builds R skills from the outset allowing modern methods of resampling and cross validation to be introduced along with traditional statistical techniques Fifty two data sets are included in the complementary R package fosdata Most of these data sets are from recently published papers so that you are working with current real data which is often large and messy Two central chapters use powerful tidyverse tools dplyr ggplot2 tidyr stringr to wrangle data and produce meaningful visualizations Preliminary versions of the book have been used for five semesters at Saint Louis University and the majority of the more than 400 exercises have been classroom tested The exercises in the book have been added to the free and open online homework system myopenmath <https://www.myopenmath.com> which may be useful to instructors

Life Cycles - A London bike courier decided to cycle around the world. 169 days later, he came back with a world record. Julian Sayarer, 2014-06-05 Julian Sayarer grew up riding a bicycle Working as a bike courier in London he learned the world record for a circumnavigation by bike had been broken and that cycling into the sunset had been bought by banks and big business Determined to do things differently Julian set out to take back the record for the people Life Cycles is his story of that record riding 110 miles every 24 hours for 6 months on only 8 84 a day a route through jungles snow and 20 different countries He found himself stranded without money in the deserts of Kazakhstan held up by insurrections in northwest China and sleeping under motorway bridges in America s Deep South Taken by life on the road and a spirit of adventure he loved every minute of it A tale of excitement and world politics by bicycle travelling at 12mph Julian found that the Tartars of Central Asia aren t so different to the trailer families of Louisiana This book is a reminder that the world is out there and it s waiting for us This is a very inspiring tale that says alot about the human race its hopes and expectations and there is even a bit about the bicycle especially spoke breakages Mike Burrows Designer of Chris Boardman s 1992 Olympic winning bicycle
