Stephen Pollan, Mark Levine

Die Broke A Radical Four Part Financial Plan:

Die Broke Stephen Pollan, Mark Levine, 2009-03-17 From America's most trusted financial advisor comes a comprehensive guide to a new and utterly sane financial choice. In *Die Broke* you'll learn that life is a game where the loser gives his money to Uncle Sam at the end. There are four steps to the process: Quit Today. No don't tell your boss to shove it at least not out loud. But in your head accept that from this day on you're a free agent whose number one workplace priority is your personal bottom line. Pay Cash. You should be as conscious of spending as you are of saving. Credit should be a rarely used tool for those few times buying homes and cars when paying cash is impossible. Don't Retire. Your work life should be a journey up and down hills rather than a climb up a sheer cliff that ends with a jump into the abyss. *Die Broke* It sounds terrifying, the one intolerable outcome to your financial life. And yet in truth dying broke might be your best option for a life without fear, fear of failure and privation, now fear of impoverishment in the long run. **Your Money After the Big 5-0** Ron Blue, Larry Burkett, Jeremy White, 2007 Authors Ron Blue and the late Larry Burkett equip readers with the knowledge, financial tools and wisdom needed for fiscal well being in the second half of life. By following Burkett and Blue's definitive direction, readers can learn to build a portfolio that provides for their family, honors God and better positions them to bless future generations with a legacy of stewardship and resources. Project Renewment Bernice Bratter, Helen Dennis, 2008-03-11 For the first time in history career women, women who have worked outside the home for most of their lives, are retiring. Without role models, they look to one another to face the changes this life transition brings. Career women from the Baby Boom and pre Baby Boom or Silent generations are approaching retirement. They want to know what it means to suddenly find themselves back inside their homes after having devoted their lives to careers outside of them. These women are highly skilled, educated and successful. They have achieved visibility, status and influence. And because they are the first large group of American women to define themselves by their work, they have few, if any, models for retirement. Project Renewment will show women that giving up their careers does not mean giving up who they are. Renewment is a term the authors created as an alternative to the word retirement, which they associated with negative stereotypes and clichés. A combination of retirement and renewal, Renewment suggests optimism and opportunity, growth and self-discovery. Project Renewment is a grassroots movement among women who are close to retirement or recently retired and looking to connect with one another. The women of Project Renewment believe that retiring is a process of change and increasing self-awareness. As they redirect the commitment and passion previously dedicated to their careers, they transform and reshape their lives. Project Renewment provides these women with an enriched and safe environment in which to explore and confront the challenges that lie ahead as they leave behind a lifetime at the office, hospital, studio or courtroom. Diverse topics are discussed, such as: Who am I without my business card? What if he retires first? What is productivity anyway? Why do I feel guilty reading a book on a Tuesday afternoon? How do I feel about not earning another dollar? Divided into two sections, Project

Renewment offers insight and support in a friendly humorous and meaningful way The first part of the book addresses the challenges that career women tackle when looking to retire The second teaches readers how to start and maintain their own Project Renewment group so they can find support inspiring relationships and even a few laughs as they look to get the most out of the rest of their lives
