Purpose of the chapter

This chapter dives into Edna as a whole, her childhood, her marriage, explaining reasons for the certain things Edna does differently than the Creoles. Edna and Madame Ratignolle go to the beach, without children, to be by themselves and make discussion.

What stands out to you / what do you notice?

We see the **theme of family** and why Edna doesn't really fit the "mother-woman" character that Leonce so desires from his wife. As a child, Edna's mom died, leaving Edna and her two sisters who fought a lot with only their father, "She and her younger sister, Janet, had quarreled a good deal through force of unfortunate habit. Her older sister, Margaret, was matronly and dignified, probably from having assumed matronly and house-wifely responsibilities too early in life, their mother having died when they were quite young," (Chopin, 21). This gives the reading some **flashback foreshadowing**, as it shows that the way Edna grew up is responsible for the way that she treats her family and her children. The reader also learns that Edna's marriage to Leonce was an accident, where Edna had a secret love when Mr. Pontellier fell in love with her, and she was pleased by his devotion to her.

8

Purpose of the chapter

This chapter follows Robert after the beach and before dinner. There isn't any conflict in this chapter, besides the favor Madame Ratignolle asks of Robert, which is to stay away from Edna. This makes Robert mad, as he believes the intention of this saying is that Madame Ratignolle is jealous, whereas she says it is because Edna wouldn't understand his antics.

What stands out to you / what do you notice?

The **tone** is this chapter makes it seem that Madame Ratignolle apparently views Edna as still an outsider, she says "She is not one of us; she is not like us. She might make the **unfortunate blunder of taking you seriously**," (Chopin, 24). Madame Ratignolle believes she is trying to "save" Edna from Robert because she wouldn't understand him. We also see the lovers again in this chapter, which I believe only appear in the book when Chopin is **foreshadowing** a shift in the relationship between Edna and Robert occurs, the same way they appear when Robert announces he's leaving for Mexico.

9

Purpose of the chapter

This chapter includes the large dinner party, where we meet a bunch of new characters. We meet the Farival twins, Old Monsieur Farival, and Mademoiselle Reis. Robert also immediately broke his promise to Madame Ratignolle, as he goes up to talk to Edna alone as soon as he can.

What stands out to you / what do you notice?

Mademoiselle Reis wouldn't want to play piano for anyone else, saying "You are the **only one worth playing for. Those others? Bah!**," (Chopin 32). Could this be because she likes Edna as an "outsider" as Madame Ratignolle would call her? The **tone** of this chapter seems more light and bubbly, compared to the chapters before which have all felt a little more serious or longing.

Radiant Emptiness Yaroslav Komarovski, 2020 In Radiant Emptiness Yaroslav Komarovski offers an annotated translation of three seminal works on the nature and relationship of the Yogacara and Madhyamaka schools of Buddhist thought by Serdok Penchen Shakya Chokden 1428 1507 There has never been consensus on the meaning of Madhyamaka and Yogacara and for more than fifteen centuries the question of correct identification and interpretation of these systems has remained unsolved Chokden proposes to accept Yogacara and Madhyamaka on their own terms as compatible systems despite their considerable divergences and reciprocal critiques His major objective is to bring Yogacara back from obscurity present it in a positive light and correct its misrepresentation by earlier thinkers He thus serves as a major resource for scholarly research on the historical and philosophical development of Yogacara and Madhyamaka Until recently Shakya Chokden's works have been largely unavailable Only in 1975 were his collected writings published in twenty four volumes in Bhutan Since then his ingenious works on Buddhist history philosophy and logic have attracted increasing scholarly attention Komarovski's research on Shakya Chokden's innovative writings most of which are still available only in the original Tibetan revises early misinterpretations by addressing some of the most complicated aspects of his thought While focusing on his unique interpretation of Yogacara and Madhyamaka the book also shows that his thought provides an invaluable base to challenge and expand our understanding of such topics as epistemology contemplative practice the relationship between intellectual study and meditative experience and other key questions that occupy contemporary scholarship on Buddhism and religion in general

The Dialectical Self Jamie Aroosi, 2018-10-02 Although Karl Marx and S ren Kierkegaard are both major figures in nineteenth century Western thought they are rarely considered in the same conversation Marx is the great

radical economic theorist the prophet of communist revolution who famously claimed religion was the opiate of the masses Kierkegaard is the renowned defender of Christian piety a forerunner of existentialism and a critic of mass politics who challenged us to become the single individual But by drawing out important themes bequeathed them by their shared predecessor G W F Hegel Jamie Aroosi shows how they were engaged in parallel projects of making sense of the modern dialectical self as it realizes itself through a process of social economic political and religious emancipation In *The Dialectical Self* Aroosi illustrates that what is traditionally viewed as opposition is actually a complementary one sidedness born of the fact that Marx and Kierkegaard differently imagined the impediments to the self's appropriation of freedom Specifically Kierkegaard's concern with the psychological and spiritual nature of the self reflected his belief that the primary impediments to freedom reside in subjectivity such as in our willing conformity to social norms Conversely Marx's concern with the sociopolitical nature of the self reflected his belief that the primary impediments to freedom reside in the objective world such as in the exploitation of the economic system However according to Aroosi each thinker represents one half of a larger picture of freedom and selfhood because the subjective and objective impediments to freedom serve to reinforce one another By synthesizing the writing of these two diametrically opposed figures Aroosi demonstrates the importance of envisioning emancipation as a subjective psychological and spiritual process as well as an objective sociopolitical and economic one *The Dialectical Self* attests to the importance and continued relevance of Marx and Kierkegaard for the modern imagination

The Journey of the Dialectic: Knowing God, Volume 3 Anthony E. Mansueto, 2010-04-07 No discipline has been more uniformly derided for a longer period than metaphysics Of the ancient and medieval sciences now in disrepute even astrology and alchemy get better press The most devastating and currently the most influential attack on metaphysics has come from a broad spectrum of thinkers including Kierkegaard Nietzsche Heidegger Arendt Levinas Derrida and Milbank who have argued that metaphysics is the root of modern nihilism and totalitarianism Anthony Mansueto puts this claim to the test developing a historical sociology of metaphysics that analyzes the social basis and political valence of metaphysical systems Mansueto does this globally and cross culturally engaging not only the Hellenic tradition and its extension into medieval Christendom and Dar al Islam but also the Indian and Chinese traditions Specifically Mansueto argues that far from representing the roots of nihilism or modern state terror metaphysics emerges and continues to be necessary as a way to ground meaning and value in societies especially in market societies in which these have become problematic Metaphysics tends to restrain exploitation and to encourage the redirection of surplus toward activities that promote development of human capacities *Knowing God The Journey of the Dialectic* concludes with an outline of a new dialectical metaphysics that reconciles a Buddhist metaphysics of interdependence in the Hua yen tradition with a historicized metaphysics of *Esse* yielding results that look startlingly like the dao xue or neo Confucianism of Song China Mansueto shows how such a metaphysics can ground meaning and value while answering postmodern concerns to safeguard difference *Lenin, Hegel,*

and Western Marxism Kevin Anderson,1995 This first full length treatment of Lenin s studies of Hegel presents Lenin as a major figure in Hegelian Marxism providing a more nuanced portrait of his work than that of either official Marxist Leninism or most Western accounts With impressive argumentation and wide ranging scholarship Anderson presents us with a Lenin that no one seriously interested in current debates over the relevance of Marxist theory to socialist practice can afford to miss Bertell Ollman author of *Dialectical Investigations* An important contribution to grasping the conceptual roots of Marxist theory and practice Tom Rockmore author of *Hegel s Circular Epistemology* Today Lenin looks like he did little more than prepare the way for Stalin You will find the opposite view in this novel study I recommend the book to anyone seriously interested in Russia and revolution George Uri Fischer author of *The Soviet System and Modern Society* **Journal for the Study of Religion** ,2005 Quotes for the Journey, Wisdom for the Way Gordon S.
