Dialogical Rhetoric An Essay On Truth And Normativity After Postmodernism Argumentation Library:

Dialogical Rhetoric W. Slob,2013-11-11 Contemporary developments in philosophy have declared truth as such troublesome and not merely gaining access to it In a systematic survey this study investigates what is at stake when truth is given up A historical overview shows how the current problem of truth came about and suggests ways to overcome rather than to repair the problem A key issue resulting from the loss of truth is the lack of normativity Truth provided an alternative understanding of normativity Elaborating on the dialectical shift in logic a dialogico rhetorical understanding of normativity is presented Rather than requiring truth agreement or rationality dialogico rhetorical normativity is the result of a balance of particular standards This type of normativity is shaped within discussions by advancing and accepting arguments and is not located in sets of predetermined rules The result is a small but strong form of normativity If this understanding of normativity is viable one of the central problems of contemporary philosophy the problem of incommensurability can be seen in a different light As a result truth reappears again Surviving the postmodern criticisms it is a matter of accountability rather than of description

Phenomenology or Deconstruction? Christopher Watkin,2009-03-03 Phenomenology or Deconstruction challenges traditional understandings of the relationship between phenomenology and deconstruction through new readings of the work of Maurice Merleau Ponty Paul Ricur and Jean Luc Nancy A constant dialogue with Jacques Derrida s engagement with phenomenological themes provides the impetus to establishing a new understanding of being and presence that exposes significant blindspots inherent in traditional readings of both phenomenology and deconstruction In reproducing neither a stock phenomenological reaction to deconstruction nor the routine deconstructive reading of phenomenology Christopher Watkin provides a fresh assessment of the possibilities for the future of phenomenology along with a new reading of the deconstructive legacy Through detailed studies of the philosophy of Merleau Ponty Ricur and Nancy he shows how a phenomenological tradition much wider and richer than Husserlian or Heideggerean thought alone can take account of Derrida s critique of ontology and yet still hold a commitment to the ontological This new reading of being and presence fundamentally re draws our understanding of the relation of deconstruction and phenomenology and provides the first sustained discussion of the possibilities and problems for any future deconstructive phenomenology
