Diasporic Activism in the Israeli-Palestinian Conflict Svenja Gertheiss, 2015-12-14 With their homelands at war can Diasporas lead the way to peace or do they present an obstacle to conflict resolution nurturing hate far away from those who actually fall victim to violence And which of these roles do the Jewish and Palestinian diaspora communities play in the Israeli Palestinian conflict Particularly since the Oslo peace process the search for a solution to the Israeli Palestinian conflict has been strongly contested among Jewish and Arab Palestinian Organizations in the United States Through an analysis of the activities of Arab Palestinian and Jewish organizations on behalf of and towards their conflict ridden homelands Diasporic Activism in the Israeli Palestinian Conflict provides both a detailed picture of diasporic activism in the Middle East as well as advancing theory building on the roles of diasporas in helping or hindering peace Drawing on research into transnational social movements diaspora studies and constructivist International Relations theory this book retraces how this process of diversification occurred and explains why neither the Jewish nor the Arab Diaspora community hold a unified position in the Israeli Palestinian conflict but are each comprised of both hawks and doves Combining theoretical depth and practical orientation this book is a key resource for those working in the fields of Middle Eastern studies Peace and Conflict Studies and Diapora Studies as well as specialists on the ground in Israel Palestine and other conflict settings in which Diaspora communities play a prominent role

Analysis and Activism Emilija Kiehl, Mark Saban, Andrew Samuels, 2016-05-05 Jungian psychology has taken a noticeable political turn in the recent years and analysts and academics whose work draws on Jung's ideas have made internationally recognised contributions in many humanitarian communal and political contexts This book brings together a multidisciplinary and international selection of contributors all of whom have track records as activists to discuss some of the most compelling issues in contemporary politics Analysis and Activism is presented in six parts Section One Interventions includes discussion of what working outside the consulting room means and descriptions of work with displaced children in Colombia projects for migrants in Italy and of an analyst's engagement in the struggles of indigenous Australians Section Two Equalities and Inequalities tackles topics ranging from the collapse of care systems in the UK to working with victims of torture Section Three Politics and Modernity looks at the struggles of native people in Guatemala and Canada and oral history interviews with members of the Chinese Vietnamese diaspora Section Four Culture and Identity studies issues of race and class in Brazil feminism and the gendered imagination and the introduction of Obamacare in the USA Section Five Cultural Phantoms examines the continuing trauma of the Cultural Revolution in China Jung's relationship with Jews and Judaism and German Jewish dynamics Finally Section Six Nature Truth and Reconciliation looks at our broken connection to nature town and country planning and relief work after the 2011 earthquake in Japan There remains throughout the book an acknowledgement that the project of thinking forward the political in Jungian psychology can be problematic given Jung's own questionable political history What emerges is a radical and progressive

Jungian approach to politics informed by the spirit of the times as well as by the spirit of the depths This cutting edge collection will be essential reading for Jungian and post Jungian academics and analysts psychotherapists counsellors and psychologists and academics and students of politics sociology psychosocial studies and cultural studies

Emplaced Resistance in Palestine and Israel Marion Lecoquierre, 2021 The Israeli Palestinian conflict gravitates constantly around the question of territorial control due to the settler colonial principle present at the core of the Zionist project Acknowledging space as a central tool of domination used by the Israeli authorities this volume sheds light on the way space can become both a resource for and an outcome of protest with an emphasis placed on the way it is used and produced through practices of resistance by subaltern groups The research relies on a comparative approach relying on data collected in the course of fieldwork conducted between 2012 and 2015 in Palestine and Israel It focuses on three sites of contention which include the H2 area in Hebron the occupied Old City under Israeli authority the core neighbourhoods of Silwan Wadi Hilwe and al Bustan and the unrecognized Bedouin village of al Araqib in the Negev desert Through these three case studies the book tackles different strategies that engage with the materiality of space place sense of place territory landscape network and scale showing the mobilization of a real spatial repertoire of contention The different regimes of control give rise to strategies that are first and foremost emplaced i e rooted in the local Providing an original comparison between flashpoints of the Palestinian resistance against the Israeli politics of dispossession and expulsion the book is a key resource for scholars and readers interested in political geography political science sociology and the Israel Palestine conflict
