Visions of Amen

Stephen Schloesser, 2014-07-10 French composer Olivier Messiaen 1908-1992 is probably best known for his Quartet for the End of Time premiered in a German prisoner of war camp in 1941. However, Messiaen was a remarkably complex, intelligent person with a sometimes tragic domestic life who composed a wide range of music. This book explores the enormous web of influences in the early part of Messiaen's long life. The first section of the book provides an intellectual biography of Messiaen's early life in order to make his difficult music more accessible to the general listener. The second section offers an analysis of and thematic commentaries on Messiaen's pivotal work for two pianos, *Visions of Amen*, composed in 1943. Schloesser's analysis includes timing indications corresponding to a downloadable performance of the work by accomplished pianists Stphane Lemelin and Hyesook Kim.

The Buddhist Swastika and Hitler's Cross T. K. Nakagaki, 2018-09-25 A remarkable cross-cultural history that rescues the swastika, an ancient Buddhist symbol, from its deployment by the forces of hate. The swastika has been used for over three thousand years by billions of people in many cultures and religions, including Buddhism, Jainism, and Hinduism, as an auspicious symbol of the sun and good fortune. However, beginning with its hijacking and misappropriation by Nazi Germany, it has also been used and continues to be used as a symbol of hate in the Western World. Hitler's device is in fact a hooked cross. Rev. Nakagaki's book explains how and why these symbols got confused and offers a path to peace, understanding, and reconciliation. Please note: Photographs in the digital edition of the book are in color; Photographs in the print edition are in black and white. *The Papers of Thomas A. Edison* Thomas A. Edison,

Pranksters Kembrew McLeod, 2014-04 Profiles the most notorious mischief makers in Western culture from 1600 to the present day and explores how pranks are part of a long tradition of speaking truth to power and social critique. Antiracist Discourse Teun A. van Dijk, 2021-04-22 Antiracism is a global and historical social movement of resistance and solidarity, yet there have been relatively few books focusing on it as a subject in its own right. After his earlier books on racist discourse, Teun A. van Dijk provides a theory of antiracism along with a history of discourse against slavery, racism, and antisemitism. He first develops a multidisciplinary theory of antiracism, highlighting especially the role of discourse and cognition as forms of resistance and solidarity. He then covers the history of antiracist discourse, including antislavery and abolition discourse between the 16th and 19th centuries; antiracist discourse by white and black authors until the Civil Rights Movement and Black Lives Matter; and Jewish critical analysis of antisemitic ideas and discourse since the early 19th century. It is essential reading for anyone interested in how racism and antisemitism have been critically analysed and resisted in antislavery and antiracist discourse. Choice, 2007
