- 3 Preparation of the environmental management plans (EMPs) of the mining projects
- 4 Environmental monitoring
- 5 Mining methods commonly used in the Indian coal and non coal mineral industry
- 6 Environmental impacts of mining on society, ecology, land, water regime and atmosphere
- 7 Environmental impact assessment (EIA)
- 8 Environmental management measures required in mineral mining including the assessment of quality of life, development of R/R packages, development of surface and underground water bodies, replantation of trees, formation and management of soil and overburden dumps, environmental aspects of blasting, land reclamation and rehabilitation, planning mine fires, acid mine drainage, inundation, noise modeling etc.
- 9 Mine closure comprising of legislative and social necessity of mine closure in the Indian context, mine closure planning for underground and opencast mines and format for mine closure planning in project report
- 10 Procedure for environmental performance auditing and evaluation
- 11 Land acquisition and optimization of land requirement for mining and associated activities and rehabilitation and resettlement
- 12 Land use planning in mining areas
- 13 Risk assessment and disaster management
- 14 Environmental aspects of tailing storage
- 15 Use of geographical information system in environmental management in mining areas
- 16 Utilization of fly ash in mines
- 17 Environmental economics
- 18 Roles of executives in environmental management in mining areas
- 19 Do's and don'ts in environmental management planning and implementation

The manual in simple English aims at to attract attention of one and all concerned with the management of mining environment. The manual will be useful to the following categories of the people in the mining complexes in the Country and Abroad:

- Mine planners in planning and designing of the mining activities and integration of environmental management measures in the mining methods
- Mine operators in implementing the environmental management measures, monitoring and compliance of legislation
- Regulatory agencies and their executives in developing a better understanding of the mining environment related aspects and implementing the legislation
- Research

workers in planning designing and undertaking research and development activities Educationists in imparting the knowledge and know how to the participants in various academic and human resource development programs The Non Governmental Organizations NGOs in developing a better understanding of the mining environment and assisting the mineral industry in effective implementation of the environmental management efforts The people in the mining complexes in developing the understanding of various aspects of the management of mining environment In addition the Manual will be an important addition to the knowledge base in the libraries of all the institutions and organizations associated with mining and environmental management The user is advised to read the Manual carefully and understand the various topics discussed and then use their own wisdom and the suggestions made in the Manual in design planning implementation and monitoring of the mining activities The legislative aspect of mining environmental management is dynamic and time to time changes are made in the Acts Rules and Regulations by the Central and State Governments The user is therefore advised to get abreast with the latest developments through the web sites of the MOEF and the Central and State Pollution Control Boards and other regulatory agencies e g DGMS IBM etc

How to Control the Fiscal Costs of Public-Private Partnerships Mr.Timothy C Irwin,Samah Mazraani,Mr.Sandeep Saxena,2018-10-16 This note discusses what finance ministries can do to ensure that public private partnerships PPPs are used wisely By inviting private participation in infrastructure development and service provision PPPs can help improve public services Yet strong governance institutions are needed to manage risks and avoid unexpected costs from PPPs While in the short term PPPs may appear cheaper than traditional public investment over time they can turn out to be more expensive and undermine fiscal sustainability particularly when governments ignore or are unaware of their deferred costs and associated fiscal risks To use PPPs wisely governments should 1 develop and implement clear rules for their use 2 identify quantify and disclose PPP risks and expected costs and 3 reform budget and government accounting frameworks to capture all fiscal costs comprehensively The Chartered Accountant ,1986 Implementing Accrual Accounting in the Public Sector Ms.Suzanne Flynn,Delphine Moretti,Joe Cavanagh,2016-08-05 This technical note and manual TNM explains what accrual accounting means for the public sector and discusses current trends in moving from cash to accrual accounting It outlines factors governments should consider in preparing for the move and sequencing of the transition The note

recognizes that governments considering accounting reforms will have different starting points across the public sector different objectives and varying coverage of the existing financial statements it therefore recommends that governments consider each of these and the materiality of stocks flows and entities outside of government accounts when planning reforms and design the sequencing and stages involved accordingly Building on international experiences the note proposes four possible phases for progressively increasing the financial operations reported in the balance sheet and operating statement with the ultimate aim of including all institutional units under the effective control of government in fiscal reports
