Cousins and Bridenbaugh's Neural Blockade in Clinical Anesthesia and Pain Medicine Michael J.

Cousins, 2012-03-29 This comprehensive authoritative text presents the scientific foundations and clinical practice of neural blockade in both regional anesthesia and the management of pain. The descriptions and illustrations of pain mechanisms are considered classic examples. The Fourth Edition has been refined for clarity and flows logically from principles and pharmacology to techniques for each anatomic region to applications. This edition has two new co editors and several new chapters on topics including neurologic complications, neural blockade for surgery, treatment of pain in older people and complications in pain medicine. A companion Website will offer the fully searchable text and an image bank. Cousins and Bridenbaugh's Neural Blockade in Clinical Anesthesia and Pain Medicine Michael J. Cousins, Phillip O. Cousins and Bridenbaugh's Neural Blockade in Clinical Anesthesia and Pain Medicine, 2009. **Anesthesiology and Pain Management** T.H.

Stanley, M.A. Ashburn, P.G. Fine, 2012-12-06 Theodore H Stanley M D. **Anesthesiology and Pain Management** contains the Refresher Course manuscripts of the presentations of the 36th Annual Postgraduate Course in Anesthesiology which took place at The Cliff Conference Center in Snowbird, Utah, February 22-26, 1991. The chapters reflect new data and concepts within the general framework of pain research and basic science clinical topics in pain management. The purposes of the textbook are to 1) act as a reference for the anesthesiologists attending the meeting and 2) serve as a vehicle to bring many of the latest concepts in anesthesiology to others within a short time of the formal presentation. Each chapter is a brief but sharply focused glimpse of the interests in anesthesia expressed at the conference. This book and its chapters should not be considered complete treatises on the subjects addressed but rather attempts to summarize the most salient points. This textbook is the ninth in a continuing series documenting the proceedings of the Postgraduate Course in Salt Lake City. We hope that this and the past and future volumes reflect the rapid and continuing evolution of anesthesiology in the late twentieth century. ix. List of Contributors: Ashburn, Michael A.
