Cost Planning And Estimating For Facilities Maintenance

Abdelhalim Boussabaine

Cost Planning And Estimating For Facilities Maintenance:

Cost Planning and Estimating for Facilities Maintenance RSMears, R.S. Means Company, 1996-05-24 A comprehensive approach to maintenance and repair planning and budgeting for all major building types Facilities professionals faced with the task of providing higher quality services on smaller budgets will find guidance for evaluating and budgeting facilities operations maintaining and repairing major building components and assembling costs into a defensible budget Cost Planning of PFI and PPP Building Projects Abdelhalim Boussabaine, 2013-04-03 This topical and timely book presents and innovative approach to dealing with the complexities of cost planning in PFI PFI PPP projects have a significantly different costing environment from conventionally procured projects requiring cost analysts to use their expertise and innovative thinking to develop whole life cost solutions that deliver value for money to the client thus improving public building assets performance Abdelhalim Boussabaine provides a thorough grounding in the theory of PFI from its early evolution through to examples of current projects In particular the rationale for private financing of public services arguments for and against PFI and value for money mechanisms are discussed The book presents an innovative framework for whole life value and calls for changes in the way whole life cycle value is perceived created and exchanged *Cost Planning of PFI and PPP Building Projects* provides the reader with existing knowledge as well as present innovative thinking for future development and management of PFI PPP cost planning processes Given the importance and novelty of this book academics professionals undergraduate and postgraduate students will find this book valuable **Building Cost Planning for the Design Team** Jim Smith, D M Jaggar, Peter Love, 2016-02-26 Cost management of all building projects has become increasingly important as clients in the public and private sector demand the highest quality cost planning services with accurate budgeting and cost control All members of the design team must integrate their activities to ensure that a high quality project is delivered on time and within budget This book considers building cost planning and cost control from the client and the design team s perspective where all decisions whether concerned with design cost quality time value or sustainability are taken as being interrelated The latest Royal Institute of British Architects RIBA Plan of Work and the New Rules of Measurement for Early Stage Estimating and Cost Planning issued by the Royal Institution of Chartered Surveyors RICS have been incorporated into this new text The book follows the building design cost planning process from the crucial inception stages and then through all the design stages to the completion of the technical design contract documentation and the tender It provides a template for good cost planning practice An essential addition to this third edition is the introduction of integrated design and documentation processes captured in building Information modelling BIM on line cost databases and computerised methods of cost planning The integrated approaches are explained and provide vital information and knowledge for practitioners involved in building projects All stakeholders involved in development and design and client teams in public and private sector policy making and implementation need to understand the new approaches to design management processes and how

cost planning and design approaches are adapting to using the new technology in practice The interactive style using in text and review questions makes this ideal for students and practitioners alike in property architecture construction economics construction management real estate engineering facilities management and project management
