Counter Proliferating The Rogue States London Security Policy Study Book 47:

Transatlantic Counter-Terrorism Cooperation Wyn Rees, 2007-01-24 Since the 1990s transatlantic security cooperation has expanded to include countering terrorism organized crime and drug trafficking However developing this area of cooperation has been more difficult than expected this book examines why *Culture and Security* Keith R. Krause, 2012-11-12 A comprehensive and empirically rich set of case studies that examine the impact of socio cultural influences on multilateral arms control and security building processes around the world **Blunder** Patrick Porter, 2018-11-01 Why did Britain go to war in Iraq in 2003 Existing accounts stress dodgy dossiers intelligence failures and the flaws of individual leaders Deploying the large number of primary documents now available this book puts ideas at the centre of the story As the book argues Britain's war in Iraq was caused by bad ideas that were dogmatically held and widely accepted Three ideas in particular formed the war's intellectual foundations the notion of the undeterrable fanatical rogue state the vision that the West's path to security is to break and remake states and the conceit that by paying the blood price Britain could secure influence in Washington DC These issues matter because although the Iraq War happened fifteen years ago it is still with us As well as its severe consequences for regional and international security the ideas that powered the war persist in Western security debate If all wars are fought twice first on the battlefield and the second time in memory this book enters the battle over what Iraq means now and what we should learn **Strategic Thinking, Deterrence and the US Ballistic Missile Defense Project** Dr Reuben Steff, 2013-11-28 A systematic critical survey of American strategic thinking and the strategic culture in which it is formed In particular this book seeks to interrogate the theory and strategy of nuclear deterrence and its relationship to the concept of missile defence Drawing widely on the theoretical literature in international relations and strategic studies it identifies the key groups that have competed over America's nuclear policy post 1945 and examines how the concept of missile defence went through a process of gestation and intellectual contestation leading to its eventual legitimization in the late 1990s Steff sheds light on the individuals groups institutions and processes that led to the decision by the Bush administration to deploy a national missile defence shield Additionally Steff systematically examines the impact deployment had on the calculations of Russia and China In the process he explains that their reactions under the Bush administration have continued into the Obama era revealing that a new great power security dilemma has broken out This Steff shows has led to a decline in great power relations as a consequence **Australia's Nuclear Policy** Michael Clarke, Stephan Frühling, 2016-03-03 Australia's Nuclear Policy Reconciling Strategic Economic and Normative Interests critically re evaluates Australia's engagement with nuclear weapons nuclear power and the nuclear fuel cycle since the dawn of the nuclear age The authors develop a holistic conception of nuclear policy that extends across the three distinct but related spheres strategic economic and normative that have arisen from the basic dual use dilemma of nuclear technology Existing scholarship on Australia's nuclear policy has generally grappled with each of these spheres in

isolation In a fresh evaluation of the field the authors investigate the broader aims of Australian nuclear policy and detail how successive Australian governments have engaged with nuclear issues since 1945 Through its holistic approach the book demonstrates the logic of seemingly conflicting policy positions at the heart of Australian nuclear policy including simultaneous reliance on US extended deterrence and the pursuit of nuclear disarmament Such apparent contradictions highlight the complex relationships between different ends and means of nuclear policy How successive Australian governments of different political shades have attempted to reconcile these in their nuclear policy over time is a central part of the history and future of Australia's engagement with the nuclear fuel cycle **Agents of War** Edward M.

Spiers,2020-11-05 Often described as the misuse of science chemical and biological weapons have incurred widespread opposition over the years Despite condemnation from the United Nations governments and the disarmament lobby they remain very real options for rogue states and terrorists In this new edition of *Agents of War* Edward M Spiers has expanded and updated this much needed history with two new chapters on political poisoning and chemical weapons in the Middle East Spiers breaks new ground by presenting his analysis in both historical and contemporary contexts giving a comprehensive chronological account of why where and when such weapons were used or suspected to be deployed *Parameters* ,2003

How Do Leaders Make Decisions? Alex Mintz,Dmitry (Dima) Adamsky,2019-09-23 Understanding how leaders make foreign policy and national security decisions is of paramount importance for the policy community and academia This book explores how leaders such as Trump Obama Netanyahu and others make decisions using the Applied Decision Analysis ADA method *Chronologies of Modern Terrorism* Barry Rubin,Judith Colp Rubin,2015-01-28 Concise yet comprehensive this one volume reference examines the history of terrorism in the modern world including its origins and development and terrorist acts by groups and individuals from the French Revolution to today Organized thematically and regionally it outlines major developments in conflicts that involved terrorism the history of terrorist groups key aspects of counterterrorist policy and specific terrorist incidents Initial chapters explore terrorism as a social force and analyze the use of terrorism as a political tool both historically and in the contemporary world Subsequent chapters focus on different parts of the world and consider terrorism as a part of larger disputes Each chapter begins with a historical introduction and analysis of the topic or region followed by one or more chronologies that trace events within political and social contexts A glossary selected bibliography and detailed index are also included **PAIS International in Print** Catherine Korvin,2003-05 This book contains bibliographic references with abstracts and subject headings to public and social policy literature and to world politics published in print and electronic formats international focus
