Country Driving Peter Hessler, 2024-02-27 From the New York Times bestselling author of *Oracle Bones* a look at the human side of China's economic revolution via a seven zero mile road trip An Economist Best Book of the Year A New York Times Notable Book of the Year Hessler a modern Marco Polo crossing China in a rented Jeep Cherokee has witnessed signs and wonders worthy of a Coen brothers film Every so often I read a book that upends my perceptions about a place This is one of them Bloomberg News In the summer of 2001 Peter Hessler the longtime Beijing correspondent for The New Yorker acquired his Chinese driver's license For the next seven years he traveled the country tracking how the automobile and improved roads were transforming China Hessler writes movingly of the average people farmers migrant workers entrepreneurs who have reshaped the nation during one of the most critical periods in its modern history *Country Driving* begins with Hessler's seven zero mile trip across northern China following the Great Wall from the East China Sea to the Tibetan plateau He investigates a historically important rural region being abandoned as young people migrate to jobs in the southeast Next Hessler spends six years in Sancha a small farming village in the mountains north of Beijing which changes dramatically after the local road is paved and the capital's auto boom brings new tourism Finally he turns his attention to urban China researching development over a period of more than two years in Lishui a small southeastern city where officials hope that a new government built expressway will transform a farm region into a major industrial center Peter Hessler whom The Wall Street Journal calls one of the Western world's most thoughtful writers on modern China deftly illuminates the vast shifting landscape of a traditionally rural nation that having once built walls against foreigners is now building roads and factory towns that look to the outside world Hessler's genius has always been in his wry commentary and ability to transcribe the rhythms of his environment onto the page From this cast of thousands emerges a picture of great hopes tinged with sadness at what is being cast aside without second thought The Wall Street Journal A fascinating road trip through a land in transition Hessler's description of China's new drivers is hilarious *Country Driving* tells us as much about contemporary China even when Hessler is not on the road The Christian Science Monitor **Country Driving** Peter Hessler, 2010

Made in China Amelia Pang, 2022-01-04 A February Indie Next Pick A New York Times Book Review Editors Choice A Newsweek Refinery 29 Most Anticipated Book of 2021 A Finalist for the 2019 J Anthony Lukas Work in Progress Award In 2012 when Julie Keith opened a package of Halloween decorations she had purchased at a big box store near her home in Oregon something shocking fell out an SOS letter handwritten in broken English by the prisoner who had made and packaged the items The letter's author Sun Yi was a Chinese engineer turned political prisoner an ordinary citizen forced into grueling labor for campaigning for the freedom to join a forbidden meditation movement He was imprisoned alongside petty criminals civil rights activists and tens of thousands of others the Chinese government had decided to reeducate carving foam gravestones and stitching clothing for more than fifteen hours a day In this page turning and urgent book

investigative journalist Amelia Pang pulls back the curtain on the human cost of the cheap consumer products Americans take for granted She goes deep inside a closely guarded network of laogai forced labor camps to tell the stories of men and women like Sun as well as members of the persecuted Uyghur minority group whose abuse and mass internment have provoked international outcry Impeccably researched and bravely reported Made in China is ultimately a call to action urging us to think more critically about and demand more answers from the companies we patronize Book jacket [China Survival Guide](#) Larry Herzberg,Qin Herzberg,2013-11-18 This updated edition of the best selling travel guide to China is your ticket to the trip of a lifetime Compact affordable reliable a delight to read these qualities are what has made China Survival Guide so popular with first time and seasoned China travelers This third edition has a brand new section on train travel plus updates and fresh recommendations Includes practical strategies for lodging walking haggling medical and bathroom emergencies etiquette crowds and learning the twin arts of patience and persistence **The Oxford Illustrated History of Modern China** Jeffrey N. Wasserstrom,2016 This lavishly illustrated volume explores the history of China from the founding of the Qing Dynasty 1644 1912 through to the present day Essential reading for anyone who wants to understand this rising superpower on the verge of what promises to be the Chinese century **The Oxford History of Modern China** Jeffrey N. Wasserstrom,2022-01-27 excellent LSE Review of Books China is the world s most populous country and newest superpower whose place on the international stage can only be understood through the lens of its modern history The Oxford History of Modern China is essential reading for anyone who wants to understand this rising power in what promises to be the Chinese century Covering the period of dramatic shifts and surprising transformations which comprise China s modern history the book spans from the founding of the Qing Dynasty 1644 1912 to the present day It introduces readers to important but often overlooked events in China s past such as the bloody Taiping Civil War 1850 1864 and also sheds new light on more familiar landmarks in Chinese history such as the Opium War 1839 1842 the Boxer Uprising of 1900 the rise to power of the Chinese Communist Party in 1949 the Tiananmen protests and Beijing Massacre of 1989 and China s rise to economic superpower status in the 21st century A new chapter for this edition brings the story into the era of Xi Jinping [Chinese Cigarette Manufacturing in Critical Historical Perspectives](#) Matthew Kohrman,Gan Quan,Liu Wennan,Robert N. Proctor,2018-04-24 Please note that this is a Chinese language edition A favorite icon for cigarette manufacturers across China since the mid twentieth century has been the panda with factories from Shanghai to Sichuan using cuddly cliché to market tobacco products The proliferation of panda branded cigarettes coincides with profound yet poorly appreciated shifts in the worldwide tobacco trade Over the last fifty years transnational tobacco companies and their allies have fueled a tripling of the world s annual consumption of cigarettes At the forefront is the China National Tobacco Corporation now producing forty percent of cigarettes sold globally What s enabled the manufacturing of cigarettes in China to flourish since the time of Mao and to prosper even amidst public health condemnation of smoking In this book an interdisciplinary group of scholars comes

together to tell that story They offer novel portraits of people within the Chinese polity government leaders scientists tax officials artists museum curators and soldiers who have experimentally revamped the country's pre Communist cigarette supply chain and fitfully expanded its political economic and cultural influence These portraits cut against the grain of what contemporary tobacco control experts typically study opening a vital new window on tobacco the single largest cause of preventable death worldwide today *Environmental Advertising in China and the USA* Xinghua Li, 2016-05-05 Since the late 1980s green consumerism has been hailed in the West as an efficient solution to environmental problems However Chinese consumers have been slow to warm up to eco friendly products Consumers prefer SUVs to hybrid cars health supplements and snake oil medicines to organic foods and eco fashion is still secluded in high end designer studios These choices contradict the findings of many sustainable lifestyle surveys that claim to register a rising desire for green products among the Chinese This book examines the psycho cultural differences that disrupt the translation of eco friendly appeals to China by analyzing environmental advertising It explores the different notions of green the structures of desire that underlies the advertisements and how they are shaped by ideological cultural and historical differences Rather than arguing the superiority of the American or Chinese version of green consumerism the book interrogates the role of advertising in the global spread of Western ideologies and explores the possibilities for consumers to resist transnational corporate hegemony in the green movement This book fills an important gap in the critical scholarship on green marketing and should be of interest to students and scholars of environment studies green advertising and marketing environmental communication and media studies China studies and environmental sociology ethics and cultural studies **Insight Guides City Guide**
