Cities Of God The Religion Of The Italian Communes 1125 1325:

Cities of God Augustine Thompson,2010-11-01 When religion is considered the subjects are usually saints heretics theologians and religious leaders thereby ignoring the vast majority of those who lived in the communes Drawing on many ecclesiastical and secular sources this book aims to give a voice to the majority orthodox lay people and those who ministered to them

The Italian City-Republics Trevor Dean,Daniel Waley,2022-09-16 Now in its fifth edition The Italian City Republics illustrates how from the eleventh century onwards many Italian towns achieved independence as political entities unhindered by any centralising power Until the fourteenth century when the regimes of individual tyrants took over in most towns these communes were the scene of a precocious and very well documented experiment in republican self government In this new edition Trevor Dean has expanded the book s treatment of women and gender the early history of the communes and the lives of non elites Focusing on the typical medium sized towns rather than the better known cities the authors draw on a rich variety of contemporary material both documentary and literary to portray the world of the communes illustrating the patriotism and public spirit as well as the equally characteristic factional strife which was to tear them apart Discussion of the artistic and social lives of the inhabitants shows how these towns were the seedbed of the cultural achievements of the early Renaissance The Bibliography has been updated to a list of Further Reading with the latest scholarship for students to continue their studies Both students and the general reader interested in Italian history literature and art will find this accessible book a rewarding and fascinating read

The Italian City Republics Daniel Philip Waley,Trevor Dean,2013-09-13 Daniel Waley and Trevor Dean illustrate how from the eleventh century onwards many dozens of Italian towns achieved independence as political entities unhindered by any centralising power Until the fourteenth century when the regimes of individual tyrants took over in most towns these communes were the scene of a precocious and very well documented experiment in republican self government Focusing on the typical medium sized towns rather than the better known cities the authors draw on a rich variety of contemporary material both documentary and literary to portray the world of the communes illustrating the patriotism and public spirit as well as the equally characteristic factional strife which was to tear them apart Discussion of the artistic and social lives of the inhabitants shows how these towns were the seed bed of the cultural achievements of the early Renaissance In this fourth edition Trevor Dean has expanded the book s treatment of religion women housing architecture and art to take account of recent trends in the abundant historiography of these topics A new selection of illuminating images has been included and the bibliography brought up to date Both students and the general reader interested in Italian history literature and art will find this accessible book a rewarding and fascinating read

The Transformation of the Laity in Bergamo, 1265-c.1400 Roisin Cossar,2006-07-01 This book examines the tension between social mores and religious activities among the laity in the Italian diocese of Bergamo during the later Middle Ages 1265 c 1400 Comparing the religious activities of lay men and women both rich and poor across a range of pious and

ecclesiastical institutions including confraternities hospitals parishes and the diocese Roisin Cossar shows how the laity's access to these institutions increasingly came to depend on their gender and social status during the fourteenth century At the same time she argues that all lay people regardless of gender and social status viewed themselves as equal members of a lay ordo The book thus illuminates the complexity of late medieval religious culture as it simultaneously reflected and challenged secular social values

History in the Comic Mode Rachel Fulton Brown, Bruce W. Holsinger, 2007-05-01 In this groundbreaking collection twenty one prominent medievalists discuss continuity and change in ideas of personhood and community and argue for the viability of the comic mode in the study and recovery of history These scholars approach their sources not from a particular ideological viewpoint but with an understanding that all topics questions and explanations are viable They draw on a variety of sources in Latin Arabic French German Middle English and more and employ a range of theories and methodologies always keeping in mind that environments are inseparable from the making of the people who inhabit them and that these people are in part constituted by and understood in terms of their communities Essays feature close readings of both familiar and lesser known materials offering provocative interpretations of John of Rupe's alchemy the relationship between the living and the saintly dead in Bernard of Clairvaux's sermons the nomenclature of heresy in the early eleventh century the apocalyptic visions of Robert of Uz's Machiavelli's *De principatibus* the role of demotic religiosity in economic development and the visions of Elizabeth of Schauenau Contributors write as historians of religion art literature culture and society approaching their subjects through the particular and the singular rather than through the thematic and the theoretical Playing with the wild possibilities of the historical fragments at their disposal the scholars in this collection advance a new and exciting approach to writing medieval history

Medieval Italy Katherine L. Jansen, Joanna Drell, Frances Andrews, 2011-09-21 Medieval Italy gathers together an unparalleled selection of newly translated primary sources from the central and later Middle Ages a period during which Italy was famous for its diverse cultural landscape of urban towers and fortified castles the spirituality of Saints Francis and Clare and the vernacular poetry of Dante Petrarch and Boccaccio The texts highlight the continuities with the medieval Latin West while simultaneously emphasizing the ways in which Italy was exceptional particularly for its cities that drove Mediterranean trade its new communal forms of government the impact of the papacy's temporal claims on the central peninsula and the richly textured religious life of the mainland and its islands A unique feature of this volume is its incorporation of the southern part of the peninsula and Sicily the glittering Norman court at Palermo the multicultural emporium of the south and the kingdoms of Frederick II into a larger narrative of Italian history Including Hebrew Arabic Greek and Lombard sources the documents speak in ethnically and religiously differentiated voices while providing wider chronological and geographical coverage than previously available Rich in interdisciplinary texts and organized to enable the reader to focus by specific region topic or period this is a volume that will be an essential resource for anyone with a professional or private interest in the history

religion literature politics and built environment of Italy from ca 1000 to 1400 Medieval Bruges Andrew Brown, Jan Dumolyn, 2018-05-03 Bruges was undoubtedly one of the most important cities in medieval Europe Bringing together specialists from both archaeology and history this total history presents an integrated view of the city's history from its very beginnings tracing its astonishing expansion through to its subsequent decline in the sixteenth century The authors analysis of its commercial growth industrial production socio political changes and cultural creativity is grounded in an understanding of the city's structure its landscape and its built environment More than just a biography of a city this book places Bruges within a wider network of urban and rural development and its history in a comparative framework thereby offering new insights into the nature of a metropolis **Cities, Texts and Social Networks, 400-1500** Caroline Goodson, Anne E. Lester, Carol Symes, 2017-05-15 Cities Texts and Social Networks examines the experiences of urban life from late antiquity through the close of the fifteenth century in regions ranging from late Imperial Rome to Muslim Syria Iraq and al Andalus England the territories of medieval Francia Flanders the Low Countries Italy and Germany Together the volume's contributors move beyond attempts to define the city in purely legal economic or religious terms Instead they focus on modes of organisation representation and identity formation that shaped the ways urban spaces were called into being used and perceived Their interdisciplinary analyses place narrative and archival sources in communication with topography the built environment and evidence of sensory stimuli in order to capture sights sounds physical proximities and power structures Paying close attention to the delineation of public and private spaces and secular and sacred precincts each chapter explores the workings of power and urban discourse and their effects on the making of meaning The volume as a whole engages theoretical discussions of urban space its production consumption memory and meaning which too frequently misrepresent the evidence of the Middle Ages It argues that the construction and use of medieval urban spaces could foster the emergence of medieval public spheres that were fundamental components and by products of pre modern urban life The resulting collection contributes to longstanding debates among historians while tackling fundamental questions regarding medieval society and the ways it is understood today Many of these questions will resonate with scholars of postcolonial or non Western cultures whose sources and cities have been similarly marginalized in discussions of urban space and experience And because these essays reflect a considerable geographical temporal and methodological scope they model approaches to the study of urban history that will interest a wide range of readers **Interpreting Early Modern Europe** C. Scott Dixon, Beat Kümin, 2019-09-11 Interpreting Early Modern Europe is a comprehensive collection of essays on the historiography of the early modern period circa 1450 1800 Concerned with the principles priorities theories and narratives behind the writing of early modern history the book places particular emphasis on developments in recent scholarship Each chapter written by a prominent historian caught up in the debates is devoted to the varieties of interpretation relating to a specific theme or field considered integral to understanding the age providing readers with a behind the scenes look at how

historians have worked and still work within these fields At one level the emphasis is historiographical with the essays engaged in a direct dialogue with the influential theories methods assumptions and conclusions in each of the fields At another level the contributions emphasise the historical dimensions of interpretation providing readers with surveys of the component parts that make up the modern narratives Supported by extensive bibliographies primary materials and appendices with extracts from key secondary debates Interpreting Early Modern Europe provides a systematic exploration of how historians have shaped the study of the early modern past It is essential reading for students of early modern history For a comprehensive overview of the history of early modern Europe see the partnering volume The European World 3ed Edited by Beat Kumin <https://www.routledge.com/The-European-World-1500-1800-An-Introduction-to-Early-Modern-History/Kumin/book/9781138119154> *Confession and Criminal Justice in Late Medieval Italy* Lidia Luisa Zanetti Domingues, 2021-08-26 In medieval Italy the practice of revenge as criminal justice was still popular amongst members of all social classes yet crime also was increasingly perceived as a public matter that needed to be dealt with by the government rather than private citizens *Confession and Criminal Justice in Late Medieval Italy* sheds light on this contradiction through an in depth comparison of lay and religious sources produced in Siena between 1260 and 1330 on criminal justice conflict and violence *Confession and Criminal Justice in Late Medieval Italy* argues that religious people were an effective pressure group with regards to criminal justice thanks both to the literary works they produced and their direct intervention in political affairs and that their contributions have not received the attention they deserve It shows that the dichotomy between theories and practices of private and of public justice should be substituted by a framework in which three models or discourses of criminal justice are recognised as present in medieval Italian communes with the addition of a specifically religious discourse based on penitential spirituality Although the models of criminal justice were competing they also influenced each other
