Cicero And The Jurists From Citizens Law To The Lawful State:

Cicero and the Jurists Jill Harries, 2006-05-26 Places the Roman Republican jurists hitherto largely neglected by historians in their intellectual social and political context *Cicero's Law* Paul J. du Plessis, 2016-08-30 This volume brings together an international team of scholars to debate Cicero's role in the narrative of Roman law in the late Republic a role that has been minimised or overlooked in previous scholarship This reflects current research that opens a larger and more complex debate about the nature of law and of the legal profession in the last century of the Roman Republic Borkowski's Textbook on Roman Law Paul du Plessis, 2010-05-13 Borkowski's Textbook on Roman Law provides a clear and concise overview of Roman private law and civil procedure supported by numerous extracts in translation from the Digest and Institutes The book has been written with undergraduate students in mind and covers all key areas commonly taught on Roman law courses at undergraduate level **Borkowski's Textbook on Roman Law** Paul J. du Plessis, 2020 Borkowski's Textbook on Roman Law is the leading contemporary textbook on Roman law Providing students with a clear and highly readable account of Roman private law and civil procedure it gives a comprehensive overview of both the historical context and modern relevance of Roman law today Translated extracts from the most important Latin legal sources the Digest and the Institutes of Justinian are included throughout Annotated further reading sections at the end of each chapter support further research Book jacket **Law and Empire** , 2013-08-15 Law and Empire provides a comparative view of legal practices in Asia and Europe from Antiquity to the eighteenth century It relates the main principles of legal thinking in Chinese Islamic and European contexts to practices of lawmaking and adjudication In particular it shows how legal procedure and legal thinking could be used in strikingly different ways Rulers could use law effectively as an instrument of domination legal specialists built their identity livelihood and social status on their knowledge of law and non elites exploited the range of legal fora available to them This volume shows the relevance of legal pluralism and the social relevance of litigation for premodern power structures **Law and Religion in the Roman Republic** Olga Tellegen-Couperus, 2011-11-25 Drawing on epigraphic legal literary and numismatic sources this book reveals how in the Roman Republic law and religion interacted to serve the same purpose the continued growth and consolidation of Rome's power **Cicero and Roman Education** Giuseppe La Bua, 2019-02-07 Presents the first full length systematic study of the reception of Cicero's speeches in the Roman educational system **Cicero's Catilinarians** D. H. Berry, 2020 The Catilinarians are a set of four speeches that Cicero while consul in 63 BC delivered before the senate and the Roman people against the conspirator Catiline and his followers Or are they Cicero did not publish the speeches until three years later and he substantially revised them before publication rewriting some passages and adding others all with the aim of justifying the action he had taken against the conspirators and memorializing his own role in the suppression of the conspiracy How then should we interpret these speeches as literature Can we treat them as representing what Cicero actually said Or do we have

to read them merely as political pamphlets from a later time In this the first book length discussion of these famous speeches D H Berry clarifies what the speeches actually are and explains how he believes we should approach them In addition the book contains a full and up to date account of the Catilinarian conspiracy and a survey of the influence that the story of Catiline has had on writers such as Sallust and Virgil Ben Jonson and Henrik Ibsen from antiquity to the present day **Leo the Great and the Spiritual Rebuilding of a Universal Rome** Susan Wessel,2008-08-29 Leo the Great responded to the crisis of the western empire by replacing secular Rome with a Christian universal Rome that could survive its political demise His humanitarian theology emphasizing the human nature of Christ made this universal Rome legitimate The Rule of Laws Fernanda Pirie,2021-11-09 From ancient Mesopotamia to today the epic story of how humans have used laws to forge civilizations Rulers throughout history have used laws to impose order But laws were not simply instruments of power and social control They also offered ordinary people a way to express their diverse visions for a better world In The Rule of Laws Oxford scholar Fernanda Pirie traces the rise and fall of the sophisticated legal systems underpinning ancient empires and religious traditions while also showing how common people tribal assemblies merchants farmers called on laws to define their communities regulate trade and build civilizations Although legal principles originating in Western Europe now seem to dominate the globe the variety of the world s laws has long been almost as great as the variety of its societies What truly unites human beings Pirie argues is our very faith that laws can produce justice combat oppression and create order from chaos
