

Communicating over the Network

Objectives

Upon completion of this chapter, you will be able to answer the following questions:

- What is the structure of a network, including devices and media necessary for communications?
- What function do protocols perform in network communications?
- What are the advantages of using a layered model to describe network functionality?
- What is the role of each layer in the OSI network model and the TCP/IP network model?
- What is the importance of addressing and naming schemes in network communications?
