Cistercians, Heresy, and Crusade in Occitania, 1145-1229 Beverly Mayne Kienzle, 2001 The present book examines this important but little studied aspect of Cistercian history to probe how and why the Order undertook endeavours that drew the monks outside their monastic vocation The analysis of texts about the preaching campaigns and of their contexts seeks to retrieve the role of preaching and to reconstruct what was preached in the light of its historical and specifically monastic context Monastic texts and their contexts furnish the keys to understanding how medieval monastic authors perceived heresy preached and wrote against it BOOK JACKET

Cistercians, Heresy and Crusade in Occitania, 1145-1229 Beverly Kienzle, 2023-06-13 A study of the involvement of the Cistercian Order in the events surrounding the outbreak of heresy particularly that of the Cathars and the resulting Albigensian Crusade in southern France Led by the example of Bernard of Clairvaux Cistercian monks turned their attention to the world outside the monastery walls in response to the threat posed by heretical Christians in particular the Cathars The white monks with other intellectuals turned to pen pulpit and popular preaching to counteract heresy some accepting posts as bishops and papal legates helping and even directing the Albigensian crusade and contributing to the formulation of procedures for inquisition Kienzle examines this important but little studied aspect of Cistercian history to discover how and why the Order undertook endeavours that drew the monks outside their monastic vocation The analysis of texts about the preaching campaigns and their contexts illuminate the ways in which medieval monastic authors perceived heresy preached and wrote against it Professor BEVERLY MAYNE KIENZLE teaches at Harvard Divinity School

Cistercian Stories for Nuns and Monks Martha G. Newman, 2020-10-30 Around the year 1200 the Cistercian Engelhard of Langheim dedicated a collection of monastic stories to a community of religious women Martha G Newman explores how this largely unedited collection of tales about Cistercian monks illuminates the religiosity of Cistercian nuns As did other Cistercian storytellers Engelhard recorded the miracles and visions of the order's illustrious figures but he wrote from Franconia in modern Germany rather than the Cistercian heartland His extant texts reflect his interactions with non Cistercian monasteries and with Langheim's patrons rather than celebrating Bernard of Clairvaux Engelhard was conservative interested in maintaining traditional Cistercian patterns of thought Nonetheless by offering to women a collection of narratives that explore the oral qualities of texts the nature of sight and the efficacy of sacraments Engelhard articulated a distinctive response to the social and intellectual changes of his period In analyzing Engelhard's stories Newman uncovers an understudied monastic culture that resisted the growing emphasis on the priestly administration of the sacraments and the hardening of gender distinctions Engelhard assumed that monks and nuns shared similar interests and concerns and he addressed his audiences as if they occupied a space neither fully sacerdotal nor completely lay neither scholastic nor unlearned and neither solely male nor only female His exemplary narratives depict the sacramental value of everyday objects and behaviors whose efficacy relied more on individual spiritual formation than on

sacerdotal action By encouraging nuns and monks to imagine connections between heaven and earth Engelhard taught faith as a learned disposition Newman s study demonstrates that scholastic questions about signs sacraments and sight emerged in a narrative form within late twelfth century monastic communities Crusades Benjamin Z. Kedar,Jonathan Phillips,Jonathan Riley-Smith,2016-08-12 Crusades covers seven hundred years from the First Crusade 1095 1102 to the fall of Malta 1798 and draws together scholars working on theatres of war their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology law literature art numismatics and economic social political and military history Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East Particular attention is given to the publication of historical sources in all relevant languages narrative homiletic and documentary in trustworthy editions but studies and interpretative essays are welcomed too Crusades appears in both print and online editions Issue 2 of the Crusades includes Jonathan Riley Smith s survey of Islam and the Crusades in history and imagination over the course of the twentieth century culminating in the aftermath of the 9 11 attacks **The Routledge Companion to the Crusades** Peter Lock,2013-04-15 A compilation of facts figures maps family trees summaries of the major crusades and their historiography the Routledge Companion to the Crusades spans a broad chronological range from the eleventh to the eighteenth century and gives a chronological framework and context for modern research on the crusading movement Not just a history of the Crusades but an overview of the logistical economic social and biographical history this is a core text for students of history and religious studies *The Popes and the Baltic Crusades* Iben Fonnesberg-Schmidt,2007 The Popes and the Baltic Crusades examines the formulation of papal policy on the crusades and missions in the Baltic region in the central Middle Ages and analyses why and how the crusade concept was extended from the Holy Land to the Baltic region

Sternberg suggests it is precisely our own peculiarly modern fascination with the idea of Cistercian aesthetics that has hindered a full view of the complex social meanings of their architecture. This book draws attention instead to the practical and symbolic means by which architecture helped the Cistercians to negotiate the dense web of relations that in actuality bound them to other spheres of medieval society. It explores the permeability of monastic boundaries and considers their effectiveness in reconciling a simultaneous need for interaction and distance between monastic communities and these other social spheres.

Cathars in Question Antonio C. Sennis, 2016. The question of the reality of Cathars and other heresies is debated in this provocative collection.

Righteous Persecution Christine Caldwell Ames, 2013-05-22. *Righteous Persecution* examines the long controversial involvement of the Order of Preachers or Dominicans with inquisitions into heresy in medieval Europe. From their origin in the thirteenth century the Dominicans were devoted to a ministry of preaching, teaching and pastoral care to save souls particularly tempted by the Christian heresies popular in western Europe. Many persons then and scholars in our own time have asked how members of a pastoral order modeled on Christ and the apostles could engage themselves so enthusiastically in the repressive persecution that constituted heresy inquisitions: the arrest, interrogation, torture, punishment and sometimes execution of those who deviated in belief from Roman Christianity. Drawing on an extraordinarily wide base of ecclesiastical documents, Christine Caldwell Ames recounts how Dominican inquisitors and their supporters crafted and promoted explicitly Christian meanings for their inquisitorial persecution. Inquisitors' conviction that the sin of heresy constituted the graver danger to the Christian soul and to the church at large led to the belief that bringing the individual to repentance even through the harshest means was indeed a pious way to carry out their pastoral task. However, the resistance and criticism that inquisition generated in medieval communities also prompted Dominicans to consider further how this new marriage of persecution and holiness was compatible with authoritative Christian texts, exemplars and traditions. Dominican inquisitors persecuted not despite their faith but rather because of it as they formed a medieval Christianity that permitted or demanded persecution. *Righteous Persecution* deviates from recent scholarship that has deemphasized religious belief as a motive for inquisition and illuminates a powerful instance of the way Christianity was itself vulnerable in a context of persecution, violence and intolerance.
