Cities Steering Towards Sustainability A Planet For Life Book 6:

Cities Pierre Jacquet, R. K. Pachauri, Laurence Tubiana, 2010-01-01 The twenty first century is already an urban one Cities are pivotal to sustainability concerns globalization climate change food security environmental protection and innovation Today s urban actors both citizens and their leaders have a major responsibility as trustees of the future their present actions will influence the shape and structure of cities so that the generation to come may live healthy and contented lives This volume takes the reader straight to the heart of how cities work and identifies contemporary trends mechanism and tools that can influence current strategies and choices The authors show that urbanization is not a problem per se for sustainable development but rather that cities in all their diversity and complexity offer solutions as well as challenges The reader will be inspired by vital analyses of the next decade s windows of opportunity for sustainable urban growth **Backpacker**
