Anderson, 2011-07-19 Book Alone Mary De Chesnay, Barbara Anderson, 2012 Within an expanding field of study in both undergraduate and graduate nursing curricula this Third Edition explores vulnerability from the perspective of individuals groups communities and populations while addressing how vulnerability affects nurses nursing and nursing care This new edition presents a basic structure for caring for the vulnerable with the ultimate goal of providing culturally competent care Theoretical and research chapters progress towards others offering meaningful learning experiences for both nursing students and practitioners Further since nurses are the crucial link between those who are vulnerable and those with access to solutions this text provides ideas for how nurses might advocate for the vulnerable on a policy level Written specifically for nurses by nurses this Third Edition is a timely and necessary response to the culturally diverse vulnerable populations for whom nurses must provide appropriate and precise care

Why Only Humans Weep Ad Vingerhoets, 2013-02-28 Crying has fascinated mankind for millenia Since ancient times we have known that emotional tears are a unique human characteristic Unsurprisingly over hundreds of years scholars from different backgrounds have speculated about the origin and functions of human tears According to Charles Darwin tears fulfilled no adaptive function And yet this seems in sharp contrast to statements in the popular media about the significance of crying Crying is thought to bring relief and is considered healthy and withholding tears unhealthy In addition tears have been said to inhibit aggression in assaulters and to promote social bonding Perhaps that could explain why tears have been so important in our evolution Ad Vingerhoets is one of the few scientists in the world to have studied crying He examines in *Why only humans weep* which claims about crying are scientifically tenable which are fact and which are fiction Though a psychologist he doesn't just restrict himself to the current psychological literature but also explores work in evolutionary biology neurosciences theology art history and anthropology to provide an integrated perspective on this complex phenomenon Written throughout in an academically accessible style this book is groundbreaking in contributing to a modern scientific understanding of crying It will have broad appeal to psychologists psychiatrists philosophers biologists and anthropologists *Teaching Cultural Competence in Nursing and Health Care, Second Edition* Marianne Jeffreys, Marianne R.
