The UK Government's "Vision for the Common Agricultural Policy" Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs Committee, 2007-05-24 Incorporating HCP 1250 session 2005 06 not previously published **House of Commons - Environment, Food and Rural Affairs Committee: Implementation of the Common Agricultural Policy in England 2014 - 2020 - HC 745** Great Britain. Parliament. House of Commons. Environment, Food and Rural Affairs Committee, 2013 Against a background where farm incomes are falling the Government needs to recognise that cutting payments to England's farmers will reduce their ability to compete in the marketplace will leave farmers less able to invest in vital infrastructure and may make them more vulnerable to shocks such as poor weather higher input costs and price variations The Committee also warns against plans to transfer more money away from direct payments to farmers by shifting it towards environmental schemes It recommends that the Government maintains the current 9% rate of transfer away from the direct payment budget This rate of transfer should rise to 15% in 2017 only if it can demonstrate that additional funds are required and that this change will deliver a clear benefit Money should also only go to people who actually farm the land and meet an active farmer test From 2015 30% of the direct payment will be conditional on farmers achieving basic environmental measures A National Certification Scheme approach to greening does not offer the flexibility to avoid the Commission's impractical crop diversification rule so the Government is right to dismiss this approach A new single IT system is being developed and the Government want access to CAP funding to be digital by default meaning farmers will have to apply online A lot went wrong in the last round of changes and these problems gave rise to 580 million in penalties Does it make sense to introduce a new computer system at the same time as complex new payment rules *Parliamentary Assembly Documents, Working papers 2000 Ordinary Session (First part), Volume I* Europe. Agriculture and Eu Enlargement: Seventeenth Report of 2003-2004

Report, Together with Formal Minutes, Oral and Written Evidence Jack Michael, 2004 Agriculture plays a larger role in the economies of the new Member states of the EU than it does in EU 15 There have thus been fears of the market being flooded by cheap agricultural exports and controversy about the extension of CAP payments This report therefore looks at the impact of enlargement on agriculture both in the new Member states and in the UK It concludes that structural fragmentation and the lack of capital investment mean that the new Member states are not in a position to undermine EU agricultural markets However there are concerns about the quality of inspection and food quality For the UK the Committee think that enlargement is more of a challenge than a threat especially if the government does more to help promote UK food exports and investments
