The Prosperity Gospel in Africa Marius Nel, 2020-06-15 Africans prevailing interest in the prosperity gospel is not only connected to the influence of American prosperity teachers reaching a worldwide audience through their imaginative use of the media but is also related to the African worldview and African traditional religion and its

lasting influence on contemporary Africans and the way they think about prosperity as well as their interest in prosperity in post colonial Africa The research from a classical Pentecostal perspective about the impact of the prosperity message on Africa is necessary timely and relevant because of its influence in the African Pentecostal movement and its potential to harm the faith of believers leading to the potential disillusionment of Christian believers who put their trust and money in formulas and recipes that seemingly only work for others especially the prosperity leaders who lead by example with incredulous riches and wealth

Africa's Diabolical Entrapment exposes Sub Saharan Africa as a region that is wantonly bruised in its trap between two major religions in the continent namely Christianity and Traditional Animism It compares religious beliefs in Africa with historical religious developments in other continents of the world to identify where Black Africa is getting it wrong While advancing the central message that the belief in Witchcraft Demigods Spirits of the dead the Ancestors and Jesus Christ is not peculiar to Africa it also emphasizes that the pervasiveness of these beliefs in today's Africa poses a serious challenge to the intellectual growth of the society in general Its conclusive projections and recommendations are definitely a subject of interest to stakeholders in the process of starting a long overdue debate in a continent that is waiting to find its place among progressive nations
