Tạp chí cộng sản, 1986 **AIDS và cộng đồng**, 2020 **Đông Nam Á**, 2007 *The Everyday Politics of Resources*
Nga Dao, 2025-05-15 The Everyday Politics of Resources explores the impact of development processes on the lives
livelihoods and landscapes of the people of Northwest Vietnam Over the past two decades the homes and farms of hundreds
of thousands of people have been appropriated to make way for dams rubber plantations and mining operations While this
development has enriched the state and private enterprises it has also resulted in widespread hardship impoverishment and
long term environmental destruction Nga Dao draws on more than twenty years of on the ground research in the region to
show how these developments have affected people in vastly uneven ways creating wealth and stability for some while
dispossessing others Filled with poignant and sometimes angry narratives by those who have lost their land and traditional
livelihoods as well as more triumphant stories from those who have prospered under the capitalist transformation of the
region The Everyday Politics of Resources is a timely urgent examination of modernization s benefits and costs 3/4 thế kỷ
