Emerging Legal Orders in the Arctic Akiho Shibata,Leilei Zou,Nikolas Sellheim,Marzia

Scopelliti,2019-04-11 More than ever before the changing environmental and political landscape in the Arctic requires stability and foreseeability based on resilient common norms The emerging legal orders in the Arctic cannot be legitimately created or effectively implemented unless all relevant actors are involved Simultaneously it must always be based on respect for the sovereign rights of the eight Arctic states in the region as well as the tradition and cultural livelihood of the local communities It is this delicate balance between Arctic and non Arctic interests that is the core problematique for the emerging legal orders in the Arctic Emerging Legal Orders in the Arctic critically examines the role of non Arctic actors in this advancement of the shape and scope of the Arctic legal order Discussing the admittance and participation of Observer states and organisations in the Arctic Council including task force meetings where new treaties are negotiated it details the issues and successes this can result in Setting up the context of the current legal orders in the Arctic the book discusses Asian indigenous and European perspectives amongst others There is a strong focus on the groundbreaking fisheries agreement of November 2017 in the Central Arctic Ocean CAO and the impact on both Arctic and non Arctic actors Interests in marine living resources scientific cooperation and the Arctic shipping regimes and governance are also thoroughly discussed from multiple perspectives The book combines the expertise of academics and practitioners in the fields of international law and Arctic governance uniquely focusing on Asian actors in the Arctic legal order making The resulting study is a fascinating insight into the interplay between non Arctic actors and the Arctic legal order and will be invaluable to academics in the field of Arctic and international law

Practical handbook for agricultural land cover mapping in the Lao People's Democratic Republic Food and Agriculture Organization of the United Nations ,Ministry of Agriculture and Forestry, Lao People's Democratic Republic,2020-09-01 This handbook presents the detailed steps for national agricultural land cover mapping conducted with limited resources and budget from design to final validation and production It covers the technical aspects of 1 selection and preprocess of satellite imagery both optical and radar 2 definition of a land cover legend using international standards 3 the integration with other existing information as well as the analysis of such database in order to assign a thematic classification 4 the interpretation 5 the accuracy assessment and 6 the final packaging and publication of results The handbook focuses on mapping agricultural land in a complex landscape such as the one found in Lao PDR where atmospheric conditions topographic effects and management makes the classification challenging The handbook also presents practical examples of the team software and skill set required to develop a national land cover dataset The objective of the document is to provide a working manual to other national teams willing to develop a land cover mapping programme

Governing Complexity in the Arctic Region Mathieu Landriault,Andrew Chater,Elana Wilson Rowe,P. Whitney Lackenbauer,2019-10-28 This book examines emerging forms of governance in the Arctic region exploring how different types of state and non state actors promote and support rules and standards The authors argue that confining our understandings of Arctic governance to Arctic states and a focus on the Arctic Council as the primary site of circumpolar

governance provides an incomplete picture. Instead they embrace the complexity of governance in the Arctic by systematically analyzing and comparing the position, interventions and influence of different actor groups seeking to shape Arctic political and economic outcomes in multiple sites of Arctic politics both formal and informal. This book assesses the potential that sub-national governments, corporations, civil society organizations, Indigenous peoples and non-Arctic states possess to develop norms and standards to ensure a stable rule-based Arctic region. It will be of interest to all scholars and students working in the fields of Arctic Sovereignty, Security Studies, Global Governance and International Political Economy.

Handbook on Human Rights in China Sarah Biddulph, Joshua Rosenzweig, 2019. This Handbook gives a wide-ranging account of the theory and practice of human rights in China viewed against international standards and China's international engagements around human rights. The Handbook is organised into the following sections: contested meanings; international dimensions; economic and social rights; civil and political rights; rights in action and access to justice; political dimensions of human rights in Greater China and new frontiers.

Routledge Handbook of Global Environmental Politics Paul G. Harris, 2022-03-24. This handbook brings together leading international academic experts to provide a comprehensive and authoritative survey of global environmental politics. Fully revised, updated and expanded to 45 chapters, the book describes the history of global environmental politics as a discipline and explains the various theories and perspectives used by scholars and students to understand it. Examines the key actors and institutions in global environmental politics, explaining the roles of states, international organizations, regimes, international law, foreign policy institutions, domestic politics, corporations and transnational actors. Addresses the ideas and themes shaping the practice and study of global environmental politics, including sustainability, consumption, expertise, uncertainty, security, diplomacy, North-South relations, globalization, justice, ethics, public participation and citizenship. Assesses the key issues and policies within global environmental politics, including energy, climate change, ozone depletion, air pollution, acid rain, transport, persistent organic pollutants, hazardous wastes, rivers, wetlands, oceans, fisheries, marine mammals, biodiversity, migratory species, natural heritage, forests, desertification, food and agriculture. This second edition includes new chapters on plastics, climate change, energy, earth system governance and the Anthropocene. It is an invaluable resource for students, scholars, researchers and practitioners of environmental politics, environmental studies, environmental science, geography, globalization, international relations and political science. Chapter 19 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at <http://www.taylorfrancis.com>.
