Deadly Arsenals Joseph Cirincione, Jon B. Wolfsthal, Miriam Rajkumar, 2002 An authoritative study of the dangers nations face today from weapons of mass destruction and the successes and failures of international nonproliferation efforts This proliferation atlas documents with maps charts and graphs the spread of nuclear chemical and biological weapons and missile delivery systems The book describes the weapons and the regimes that try to control them it also details the countries that have want or have given up weapons of mass destruction *Deadly Arsenals* provides the most up to date and comprehensive assessment available on the subject and is a valuable resource for policymakers scholars students and the media

North Korea's Military Threat Andrew Scobell, 2007 *Weapons of Mass Destruction* Michael Kort, 2010 Presents a guide to the issues of weapons of mass destruction including definitions primary sources case studies research tools organizations and notable persons

Jihadists and Weapons of Mass Destruction Gary Ackerman, Jeremy Tamsett, 2009-02-03 Explores the Nexus Formed When Malevolent Actors Access Malignant Means Written for professionals academics and policymakers working at the forefront of counterterrorism efforts *Jihadists and Weapons of Mass Destruction* is an authoritative and comprehensive work addressing the threat of weapons of mass destruction WMD in the hands of jihadists

Weapons of Mass Destruction Joseph M. Siracusa, Aiden Warren, 2017-03-29 Whether possessed by a state or non state actor the specter of Weapons of Mass Destruction WMDs and more specifically nuclear weapons and their associated material present a significant threat to global security Notwithstanding the fact that there are fewer nuclear weapons today than the massive stockpiles that existed during the height of the Cold War the complexities relating to nuclear security have in many ways intensified amid globalization and porous borders More states in volatile regions possess such weapons UN Security Council states are busily modernizing their weapons and non states actors have made it clear their intention to use such weapons should they attain them The emerging prospect of a cyber attack or a misunderstanding that could potentially evolve into a limited regional nuclear war would both have dire global ramifications and are scenarios that

should not be considered farfetched. Additionally, concerns pertaining to chemical and biological weapons, the associated ramifications relating to nuclear terrorism, and broader limitations of the NPT regime all pose major challenges to global stability. In considering all of these areas, this foundational primer for the Rowman and Littlefield WMD Series seeks to inform and advance policy debate in ways that support international security while also adding important connective tissue between analytical areas in the IR and historical domains that often remain separate. Offering a comprehensive analysis of the evolution and current status of WMDs, this volume will be of great interest to scholars, analysts, and students of security studies, international history, and international relations.

Nuclear Proliferation in South Asia Sumit Ganguly, S. Paul Kapur, 2008-08-06. This edited volume explores competing perspectives on the impact of nuclear weapons proliferation on the South Asian security environment. The spread of nuclear weapons is one of the world's foremost security concerns. The effect of nuclear weapons on the behaviour of newly nuclear states and the potential for future international crises are of pa

The Oxford Encyclopedia of American Military and Diplomatic History Timothy J. Lynch, 2013. Entries written by renowned diplomatic and military historians as well as key scholars in international relations. Provides assessments and analyses of key episodes, issues, and actors in the military and diplomatic history of the United States. Based on the award-winning Oxford Companion to United States History. Comprehensive collection of entries that span the founding of the U.S. to its present state. Offers a wide range of perspectives to provide an encompassing context of the United States military and diplomatic legacies. Expansive bibliographies and suggested readings for each article to aid in research. The Oxford Encyclopedia of American Military and Diplomatic History, a two-volume set, will offer both assessment and analysis of the key episodes, issues, and actors in the military and diplomatic history of the United States. At a time of war in which ongoing efforts to recalibrate American diplomacy are as imperative as they are perilous, the Oxford Encyclopedia will present itself as the first recourse for scholars wishing to deepen their understanding of the crucial features of the historical and contemporary foreign policy landscape and its perennially martial components. Entries will be written by the top diplomatic and military historians and key scholars of international relations from within the American academy, supplemented as is appropriate for an encyclopedia of diplomacy with entries from foreign-based academics in the United Kingdom and elsewhere. The crucial importance of the subject is reflected in the popularity of university courses dedicated to diplomatic and military history and the enduring appeal of international relations (IR) as a political science discipline drawing on both. The Oxford Encyclopedia will be a basic reference tool across both disciplines, a potentially very significant market. Readership: University level, undergraduate and graduate students in History.

Who's in Charge? Laura H. Kahn, 2020-04-16. With a new preface assessing leadership responses to the coronavirus pandemic, this text explores leadership problems that can develop during such public health crises as the 2001 anthrax attacks, 2003 SARS epidemic, and Mad Cow Disease epidemic of the 1980s/1990s. A threat to public health such as a rampaging virus is no time for a muddled chain of command and

contradictory decision making Who's In Charge Leadership during Epidemics Bioterror Attacks and Other Public Health Crises re issued with a new preface assessing leadership during the COVID 19 outbreak explores the crucial relationships among political leaders public health officials and journalists to see why leadership confusion develops As the problematic response to COVID 19 has once again shown the reluctance of politicians to risk alarm can run counter to the public health need to prepare for worse cases Many leaders will seek high visibility during a public health crisis but politicians are not medical experts and the more they speak the more they risk disseminating harmful information How to achieve the right balance is the essence of this book Beginning by looking at the overarching issues of leadership and public health administration it then examines in depth five emergencies the 2001 anthrax attacks the 1993 cryptosporidium outbreaks the 2003 SARS outbreak the 2001 foot and mouth disease crisis and the battle against Mad Cow Disease

A Global History of the Nuclear Arms Race Richard Dean Burns, Joseph M. Siracusa, 2013-04-23 Written by two preeminent authors in the field this book provides an accessible global narrative of the nuclear arms race since 1945 that focuses on the roles of key scientists military chiefs and political leaders The first book of its kind to provide a global perspective of the arms race this two volume work connects episodes worldwide involving nuclear weapons in a comprehensive narrative fashion Beginning with a discussion of the scientific research of the 1930s and 1940s and the Hiroshima decision the authors focus on five basic themes political dimensions technological developments military and diplomatic strategies and impact The history of the international nuclear arms race is examined within the context of four historical eras America's nuclear monopoly America's nuclear superiority superpower parity and the post Cold War era Information about the historical development of the independent deterrence of Britain France and China as well as the piecemeal deterrence of newcomers Israel India Pakistan and North Korea is also included as is coverage of the efforts aimed at the international control of nuclear weapons and the diplomatic architecture that underpins the global nuclear non proliferation regime
