Digimodernism Digimodernism:

Digimodernism Alan Kirby, 2009-05-01 Almost without anybody noticing a new cultural paradigm has come center stage displacing an exhausted and increasingly marginalised postmodernism Dr Alan Kirby calls this cultural paradigm digimodernism a name comprising both its central technical mode and its privileging of the fingers and thumbs in its use The increasing irrelevancy of postmodernism requires a new theory to underpin our current digital culture *Emergence of Social Media: Shaping the Digital Discourse of the Next Generation* Swati Agarwal, Dr. Sharmila Kayal, Dr. Sayak Pal, Dr. Syed Tabrez Hassan, Ms. Ann Mercy J, Dr. Brindhadevi C, Dr. Samuel Okechukwu Omeje, Buike Oparaugo, Mary Onyedikachi Chukwuka, MD. Pragmatism, Technology, and the Persistence of the Postmodern Andrew Wells Garnar, 2020-07-15 Is postmodernity over Does postmodernism still have anything important to say Pragmatism Technology and the Persistence of the Postmodern argues yes to both Despite the claims of a number of scholars that postmodern is over and done with Andrew Wells Garnar demonstrates its continued relevance by carefully examining the use of information and communication technologies These technologies illustrate many important postmodern concepts thus showing the continued significance of postmodern philosophy Garnar reconstructs these concepts with the tools of classical pragmatism By engaging with pragmatists as well as with the thought of Jean Fran ois Lyotard Albert Borgmann and others this book produces a revitalized vision of both pragmatism and the postmodern This version of pragmatism reflects the tenor of the times in a more nuanced way while also showing how the postmodern continues to play out in contemporary life Pragmatism Technology and the Persistence of the Postmodern shows how a pragmatic conception of technology opens up possibilities for working within postmodernity to materially address social and technical problems

The Planetary Turn Amy J. Elias, Christian Moraru, 2015-04-30 A groundbreaking essay collection that pursues the rise of geoculture as an essential framework for arts criticism The Planetary Turn shows how the planet as a territory a sociopolitical arena a natural space of interaction for all earthly life and an artistic theme is increasingly the conceptual and political dimension in which twenty first century writers and artists picture themselves and their work In an introduction that comprehensively defines the planetary model of art culture and cultural aesthetic interpretation the editors explain how the living planet is emerging as distinct from older concepts of globalization cosmopolitanism and environmentalism and is becoming a new ground for exciting work in contemporary literature visual and media arts and social humanities Written by internationally recognized scholars the twelve essays that follow illustrate the unfolding of a new vision of potential planetary community that retools earlier models based on the nation state or political blocs and reimagines cultural political aesthetic and ethical relationships for the post Cold War era

Supplanting the Postmodern David Rudrum, Nicholas Stavris, 2015-09-24 For more than a decade now a steadily growing chorus of voices has announced that the postmodern literature art thought and culture of the late 20th century have come to an end At the same time as this the early years of the 21st century have seen a stream of critical formulations proclaiming a successor to postmodernism Intriguing and exciting new terms such as remodernism performatism hypermodernism automodernism renewalism altermodernism digimodernism and metamodernism have been coined proposed and debated as terms for what comes after the postmodern Supplanting the Postmodern is the first anthology to collect the key writings in these debates in one place The book is divided into two parts the first The Sense of an Ending presents a range of positions in the debate around the demise of the postmodern the second Coming to Terms with the New presents representative writings from the new isms

mentioned above Each of the entries is prefaced by a brief introduction by the editors in which they outline its central ideas point out the similarities and or differences from other positions found in the anthology and suggest possible strengths and limitations to the insights presented in each piece New Literary Hybrids in the Age of Multimedia Expression Marcel Cornis-Pope, 2014-11-15 Begun in 2010 as part of the Histories of Literatures in European Languages series sponsored by the International Comparative Literature Association the current project on New Literary Hybrids in the Age of Multimedia Expression recognizes the global shift toward the visual and the virtual in all areas of textuality the printed verbal text is increasingly joined with the visual often electronic text This shift has opened up new domains of human achievement in art and culture The international roster of 24 contributors to this volume pursue a broad range of issues under four sets of questions that allow a larger conversation to emerge both inside the volume's sections and between them The four sections cover 1 Multimedia Productions in Theoretical and Historical Perspective 2 Regional and Intercultural Projects 3 Forms and Genres and 4 Readers and Rewriters in Multimedia Environments The essays included in this volume are examples of the kinds of projects and inquiries that have become possible at the interface between literature and other media new and old They emphasize the extent to which hypertextual multimedia and virtual reality technologies have enhanced the sociality of reading and writing enabling more people to interact than ever before At the same time however they warn that as long as these technologies are used to reinforce old habits of reading writing they will deliver modest results One of the major tasks pursued by the contributors to this volume is to integrate literature in the global informational environment where it can function as an imaginative partner teaching its interpretive competencies to other components of the cultural landscape

Beyond Postmodernism Christopher K. Brooks, 2014-07-03 *Beyond Postmodernism* *Onto the Postcontemporary* is a collection designed to provide the reader with an alternative to viewing the world through the lens of Postmodernism Contributors to this collection utilize and define such critical tools as transhumanism post post theory posthumanism and postcontemporary theory Other essays focus on interpreting texts or genres yielding impressive conclusions that were beyond the scope of postmodern discourse Eclectic in nature while examining works as diverse as Julia Ward Howe's *The Hermaphrodite* and Salman Rushdie's *Satanic Verses* yet unified in a commonsensical statement that postmodernism has perhaps ruled too long in critical discussions this collection is also designed to attract those seeking or awaiting something new in critical methodology to consider joining in the postcontemporary dialogue
