Digressions and the Human Imagination Morten Nielsen, 2024-09-30 Digressions and the Human Imagination makes a significant contribution to our anthropological knowledge about human creativity The creative force of the human imagination is widely considered as a key ingredient in understanding how social and cultural transformations occur And yet what we know about the nature of creative processes is surprisingly limited Taking their cue from literary studies the contributors to this volume explore digression as human creativity's main impulse They offer a series of experimental explorations of digression in different arenas of social life literature conversations myths humour art and wayfinding In their examination of the relationship between creativity and digressive processes the contributions challenge and eventually collapse conventional distinctions between artistic and scientific imaginaries This

book articulates with clarity the freedom and joy of wandering off in new directions but also the potentially transgressive and even revolutionary character that digression has when it is put to work through the creativity of the human imagination It will be relevant for anthropologists and other scholars from across the humanities and social sciences with an interest in creativity

A Theory of Narrative Alojzija Zupan Sosič, 2022-09-08 Relying on the structure and methodology of classical and postclassical narratology this book explores the phenomena of story and narrative narrator focalization character time and space as well as the beginning and the ending of a narrative It upgrades the theory of the unreliable narrator and introduces three new categories that have until now been exclusively used to refer to unreliable narrators namely commentators interpreters and evaluators

Incomparable Realms Jeremy Robbins, 2022-06-20 A sumptuous history of Golden Age Spain that explores the irresistible tension between heavenly and earthly realms *Incomparable Realms* offers a vision of Spanish culture and society during the so called Golden Age the period from 1500 to 1700 when Spain unexpectedly rose to become the dominant European power But in what ways was this a Golden Age and for whom The relationship between the Habsburg monarchy and the Roman Catholic Church shaped the period with both constructing narratives to bind Spanish society together *Incomparable Realms* unpicks the impact of these two historical forces on thought and culture and examines the people and perspectives such powerful projections sought to eradicate The book shows that the tension between the heavenly and

earthly realms and in particular the struggle between the spiritual and the corporeal defines Golden Age culture In art and literature mystical theology and moral polemic ideology doctrine and everyday life the problematic pull of the body and the material world is the unacknowledged force behind early modern Spain Life is a dream as the title of Calder n s famous play of the period proclaimed but there is always a body dreaming it **Narratives Unsettled** Samuel Frederick,2012-08-31

Narratives Unsettled argues by way of close readings of three very different German language writers that only if we conceive of narrativity unburdened by plot can we properly account for radical forms of digression **The Novel and Europe** Andrew Hammond,2016-10-05 This book examines the ways in which fiction has addressed the continent since the Second World War Drawing on novelists from Europe and elsewhere the volume analyzes the literary response to seven dominant concerns ideas of Europe conflict borders empire unification migration and marginalization offering a ground breaking study of how modern and contemporary writers have participated in the European debate The sixteen essays view the chosen writers not as representatives of national literatures but as participants in transcontinental discussion that has occurred across borders cultures and languages In doing so the contributors raise questions about the forms of power operating across and radiating from Europe challenging both the institutionalized divisions of the Cold War and the triumphalist narrative of continental unity currently being written in Brussels Affective Geographies Paul Michael Johnson,2021-02-19 By reading the works of Miguel de Cervantes through the history of emotion this book defies a series of long standing commonplaces about the author s writing and the Mediterranean region at large
