Deadly Words Witchcraft In The Bocage:

Deadly Words Jeanne Favret-Saada, 1980 Reading Ethnography David Jacobson, 1991-01-01 This book presents a model for analyzing and evaluating ethnographic arguments It examines the relationship between the claims anthropologists make about human behavior and the data they use to warrant them Jacobson analyzes the textual organization of ethnographies focusing on the ways in which problems interpretations and data are put together He examines in detail a limited number of well known ethnographic cases which are selected to illustrate basic theoretical frameworks and modes of analysis By advancing a method for assessing ethnographic accounts the book contributes to the current debate on the role of rhetoric and reflexivity in anthropology **Witchcraft, Gender, and Society in Early Modern Germany** Jonathan Bryan Durrant, 2007 Using the example of Eichstatt this book challenges current witchcraft historiography by arguing that the gender of the witch suspect was a product of the interrogation process and that the stable communities affected by persecution did not collude in its escalation **Deadly Words** Jeanne Favret-Saada, 1977-01-01 Medicine, Rationality and Experience Byron J. Good, 1994 Biomedicine is often thought to provide a scientific account of the human body and of illness In this view non Western and folk medical systems are regarded as systems of belief and subtly discounted This is an impoverished perspective for understanding illness and healing across cultures one that neglects many facets of Western medical practice and obscures its kinship with healing in other traditions Drawing on his research in several American and Middle Eastern medical settings in this 1993 book Professor Good develops a critical anthropological account of medical knowledge and practice He shows how physicians and healers enter and inhabit distinctive worlds of meaning and experience He explores how stories or illness narratives are joined with bodily experience in shaping and responding to human suffering and argues that moral and aesthetic considerations are present in routine medical practice as in other forms of healing **The Familial Occult** Alexandra Coțofană, 2023-11-10 The Familial Occult addresses the presence of occult experiences in some scholars families and how that has affected their epistemological and ontological worlds as well as their identities as scholars Those with backgrounds in the familial occult often experience a series of conflicting relationships and different ways of interacting with binaries such as the subjective and objective a powerful conceptual couple still governing academic thinking While much has been written on encountering the occult in fieldwork or becoming an apprentice in an occult practice little yet has been published in the academic literature about growing up with the occult **Witches and Witchcraft** Dean Miller, 2014-01-01 Magical phenomenon pagan worship sorcery and religion have all at one time been thought of as witchcraft Witches were labeled magical wizards or sorcerers who had powers to conjure ill feeling or will toward non magical people These ideas predate the Anglo Saxon period This engaging and meticulously illustrated atlas reveals cultural ideas from a global perspective about witches and witchcraft their place in their society and the sometimes cruel punishments they were subjected to Sidebars and boxes highlight interesting facts glossary an index and resources for

Creative Histories of Witchcraft Poppy Corbett, Anna Kisby Compton, William G. Pooley, 2022-06-23 How can researchers study magic without destroying its mystery Drawing on a collaborative project between the playwright Poppy Corbett the poet Anna Kisby Compton and the historian William G Pooley this *Element* presents thirteen tools for creative academic research into magic illustrated through case studies from France 1790 1940 and examples from creative outputs write to discover borrow forms use the whole page play with footnotes erase the sources write short accumulate fragments re enact improvise use dialogue change perspective make methods of metaphors use props These tools are ways to untell the dominant narratives that shape stereotypes of the witch which frame belief in witchcraft as ignorant and outdated Writing differently suggests ways to think and feel differently to stay with the magic rather than explaining it away The *Element* includes practical creative exercises to try as well as research materials from French newspaper and trial sources from the period

Witchcraft Accusations and Persecutions as a Mechanism for the Marginalisation of Women Samantha Spence, 2017-08-21 This book draws on feminist commentary from the disciplines of anthropology history law politics and sociology in order to deal with the phenomenon of modern day witchcraft It focuses on

the re emergence of witchcraft beliefs in contemporary society suggesting that witchcraft accusations and persecution are being used as a marginalisation mechanism of women The re emergence of witchcraft beliefs in contemporary society and the prevalence of the violence associated with such beliefs has received little attention within academic literature yet witchcraft related violence against women is progressively becoming one of the most pervasive forms of violence facing women today This book addresses this gap in the literature discussing the return of witchcraft beliefs to contemporary society whilst assessing the effectiveness of international human rights law in protecting women from witchcraft accusations and persecution
