Das Wunderpreisungsspiel Catharina Greiffenberg Leimgruber:

Spiritual Vegetation Guita Lamsechi, Beatrice Trîncea, 2022-04-11 This volume concerns premodern understandings of vegetal nature that encompass multiple semantics and perspectives Scholars from the disparate fields of art history literature and religious studies present tantalizing studies of trees and plants in sacred and secular thought Some discuss the concept of the Book of Nature and its implications Others explore narratives of symbiosis between humans and vegetal material tree dwelling hermits spirits metamorphosing into wood flowers or trees that sprout from bodies or the dissolution of the self into the natural world Complementary to these approaches are studies that suggest a collapsing of time and space in spiritually charged yet ambiguous natural motifs or topographies where forests or groves are spaces of transformative experience
