Changing Meanings Of Citizenship In Modern China Harvard Contemporary China Series:

Changing Meanings of Citizenship in Modern China Merle Goldman, Elizabeth J. Perry, 2002-06-30 This collection of essays addresses the meaning and practice of political citizenship in China over the past century raising the question of whether reform initiatives in citizenship imply movement toward increased democratization After slow but steady moves toward a new conception of citizenship before 1949 there was a nearly complete reversal during the Mao regime with a gradual reemergence beginning in the Deng era of concerns with the political rights as well as the duties of citizens The distinguished contributors to this volume address how citizenship has been understood in China from the late imperial era to the present day the processes by which citizenship has been fostered or undermined the influence of the government the different development of citizenship in mainland China and Taiwan and the prospects of strengthening citizens rights in contemporary China Valuable for its century long perspective and for placing the historical patterns of Chinese citizenship within the context of European and American experiences *Changing Meanings of Citizenship in Modern China* investigates a critical issue for contemporary Chinese society *Practicing Citizenship in Contemporary China* Sophia

Woodman, Zhonghua Guo, 2020-04-02 This book examines citizenship as practiced in China today from a variety of angles Citizenship in China and elsewhere in the Global South has often been perceived as either a distorted echo of the real democratic version in Europe and North America or an orientalized other that defines what citizenship is not By contrast this book sees Chinese citizenship as an aspect of a connected modernity that is still unfolding The book focuses on three key tensions a state preference for sedentarism and governing citizens in place vs growing mobility sometimes facilitated by the state a perception that state building and development requires a strong state vs ideas and practices of participatory citizenship and submission of the individual to the collective state community village family etc vs the rising salience of conceptions of self development and self making projects Examining manifestations of these tensions can contribute to thinking about citizenship beyond China including the role of the local in forming citizenship orders how individualization works in the absence of liberal individualism and how social citizenship is increasingly becoming a reward to good citizens rather than a mechanism for achieving citizen equality This book was originally published as a Special Issue of the journal *Citizenship Studies* **Grassroots Political Reform in Contemporary China** Elizabeth J. Perry, Merle

Goldman, 2009-07-01 Observers often note the glaring contrast between China's economic progress and its stalled political reforms This volume written by experienced scholars explores a range of grassroots efforts initiated by the state and society alike to restrain corrupt behavior and enhance the accountability of local authorities **Rethinking the 1898 Reform Period** Rebecca E. Karl, Peter Zarrow, 2020-03-23 The nine essays in this volume reexamine the hundred days in 1898 and focus particularly on the aftermath of this reform movement Their collective goal is to rethink the reforms not as a failed attempt at modernizing China but as a period in which many of the institutions that have since structured China began

Among the subjects covered are the reform movement the reformers newspapers education the urban environment female literacy the new woman citizenship and literature All the contributors urge the view that modernity must be seen as a conceptual framework that shaped the Chinese experience of a global process an experience through which new problems were raised and old problems rethought in creative inventive and contradictory ways *Small Town China* Beatriz Carrillo Garcia,2011-04-19 While much has been written about rural migrant workers experiences in the big cities population movements into China s vast network of towns and small cities has been largely neglected This book presents a detailed case study of rural migrant workers experiences in a small town in a north China county The author explores the processes and institutions that enable or preclude the social inclusion of rural workers into the town s socio economic system Inclusion and exclusion are assessed through an examination of rural workers immersion into the urban labour market their access to welfare benefits and to social services such as housing education and health The book proposes that outside the larger cities there are alternative accounts of urban social change and of the integration of rural migrant workers It stresses the fact that the particular socio economic structure of towns where the state owned share of the economy has been smaller and where consequently social and private forces have been more active allowed for a more open inclusion of rural workers Though shortcomings are still observed the book suggests that China s transformation may not necessarily result in dysfunctional and socially polarized urban environments This book will be of interest to students and scholars of China s rural migrant workers bottom up urbanization and small town development social policy and more broadly on contemporary social change in China

Gender and Sexuality in Modern Chinese History Susan L. Mann,2011-09-19 Gender and sexuality have been neglected topics in the history of Chinese civilization despite the fact that there is a massive amount of historical evidence on the subject China s late imperial government was arguably more concerned about gender and sexuality among its subjects than any other pre modern state How did these and other late imperial legacies shape twentieth century notions of gender and sexuality in modern China Susan Mann answers this by focusing on state policy ideas about the physical body and notions of sexuality and difference in China s recent history from medicine to the theater to the gay bars from law to art and sports More broadly the book shows how changes in attitudes toward sex and gender in China during the twentieth century have cast a new light on the process of becoming modern while simultaneously challenging the universalizing assumptions of Western modernity

Civil Society and Governance in China J. Yu,Sujian Guo,2012-03-12 Written by scholars from both inside and outside China this wide ranging collection of essays explores the complexity of the relationship between governance and civil society by combining theoretical exploration and empirical case studies based on the governance practice in China

Theorizing Chinese Citizenship Zhonghua Guo,Sujian Guo,2015-10-08 This volume theorizes the concept of citizenship in contemporary China by probing into the formation of Chinese citizenship and synthesizing the practices of citizenship by different social groups The first section Imagining Chinese Citizenship analyses how Chinese

citizenship was first imagined by means of translation and education at the beginning of the twentieth century The Chinese citizenship was then compared with the concept of Western citizenship and that of other Asian countries The second section Citizenship of Chinese Migrant Workers explains the citizenship status of migrant workers by discussing the relationship between household registration hukou system and citizenship of the migrant workers showing how migrant workers contest their citizenship rights and categorizing the resistance of migrant workers from the perspective of citizenship Finally the last section Chinese Citizenship Education discusses the conditions and challenges of citizenship education in Chinese schools

Chinese Society Elizabeth J. Perry, Henry Rosovsky Professor of Government Elizabeth J Perry, Mark Selden, 2003-09-02 Written by an interdisciplinary and international team of Chinese scholars this book offers an authoritative analysis of contemporary Chinese society protest and resistance The Limits of Westernization Jon Davidann, 2018-07-11 The goal of this project is to locate the origins and development of modern thought in the United States and East Asia in the late nineteenth and early twentieth century While a strong literature on post war modernization exists there is a gap in the pre war origins and development of modern ideas This book re evaluates the influence of the United States on East Asia in the twentieth century and gives greater voice to East Asians in the construction of their own ideas of modernity
